Citation: Tajovský K, Tuf IH (2015) Introduction for Proceedings volume of 16th International Congress of Myriapodology. In: Tuf IH, Tajovský K (Eds) Proceedings of the 16th International Congress of Myriapodology, Olomouc, Czech Republic. ZooKeys 510: 1–4. doi: 10.3897/zookeys.510.10176

The papers in this special issue of ZooKeys were presented at the 16th International Congress of Myriapodology (16ICM) held in Olomouc, the Czech Republic on July 20–25, 2014. International Congresses of Myriapodology are scientific meetings of scientists, students and enthusiastic amateurs with specific interest in millipedes, centipedes, symphylans and pauropods, as well as velvet worms. Those are organised under the auspices of the Centre International de Myriapodologie (<http://www.myriapodology.org>). To date, these congresses have a 46 year tradition and have taken place in 13 countries:

Aleksandar Doichinov, Elisavet Georgopoulou, Eszter Lazányi, Gabriella Papastefanou and Irina Zenkova are missing.

16ICM was the first myriapodological congress to be held in the Czech Republic. The 84 participants and 18 accompanying persons came from 24 countries on five continents, making the 16th Congress a truly international and global meeting of myriapod specialists (Figs 1, 2).

The organisers of the 16ICM are very grateful to the Palacký University, Olomouc, which provided us a pleasant area for all scientific as well as social parts of the Congress. We also thank the Biology Centre CAS and partial support from several unnamed colleagues who allowed the participation of young students at this Congress.

Many thanks to Lyubomir Penev and the friendly staff at Pensoft Publishers for making the 16ICM papers freely available to a global online audience.
