Contents

1

Lepocranus and Valayllum gen. nov. (Orthoptera, Tettigidae, Cladonotinae), endangered Malagasy dead-leaf-like grasshoppers
Maki Deranja, Niko Kasalo, Karmela Adžić, Damjan Franjević, Joip Skejo

17

A new systematic arrangement for the blister beetle genus *Eurymeloe* (Meloini, Meloidae, Coleoptera) with the description of a new species from Spain
Alberto Sánchez-Vialas, José L. Ruiz, Ernesto Recuero, Felipe Gutiérrez-Pérez, Mario García-París

49

Comparative mitogenomics of the genus *Motacilla* (Aves, Passeriformes) and its phylogenetic implications
Chao Yang, Xiaojuan Du, Yuxin Liu, Hao Yuan, Qingsheng Wang, Xiang Hou, Huisheng Gong, Yan Wang, Yuan Huang, Xuejuan Li, Haiyan Ye

67

Two new species and a new genus of ray spiders (Araneae, Theridiosomatidae) from the Ryukyu Islands, southwest Japan, with notes on their natural history
Yuya Suzuki, Takehisa Hiramatsu, Haruki Tatsuta

103

The complete mitochondrial genome of *Meloe proscarabaeus* (Coleoptera, Meloidae): genome descriptions and phylogenetic inferences
Song Chen, Changhua Liu, Yuanmin Hao, Yueyue Liu, Xu Liu, Chao Du

115

Ten new species of genus *Tachycines* (Orthoptera, Rhaphidophoridae, Aemodogryllinae) from karst caves in Guizhou, China
Xulin Zhou, Weicheng Ya

141

Revision of the water scavenger beetle genus *Notionotus* Spangler, 1972 in the Neotropical Region (Coleoptera, Hydrophilidae, Enochrinae)
Liza M. González-Rodríguez, Andrew Edward Z. Short

Focus and Scope

ZooKeys is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free information exchange in taxonomy, phylogeny, biogeography and evolution of animals. ZooKeys aims to apply the latest trends and methodologies in publishing and preservation of digital materials to meet the highest possible standards of the cybertaxonomy era. ZooKeys will publish papers in systematic zoology containing taxonomic/faunistic data on any taxon of any geological age from any part of the world with no limit to manuscript size.

ZooKeys will consider for publishing works on the following topics:
- new descriptions of taxa, if they are accomplished with proper diagnoses, keys and/or revision of at least at species group level
- taxonomic revisions of extant (or “recent”) and fossil animal groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, conpecti, atlases
- collections of papers, Festschrift volumes, conference proceedings

Authors are kindly requested to submit their manuscript only through the online submission module at www.pensoft.net/journals/zookeys. In case of difficulties with the submission procedure, please contact zookeys@pensoft.net. Full text of author guidelines is available at: zookeys.pensoft.net/#AboutAuthorGuidelines

EXCEPTS FROM THE GUIDELINES

Body Text. All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy; use the active voice and first person whenever appropriate.

Web (HTML) links. Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a web-page, please include the http:// portion of the address.

Citations within the text. Before submitting the manuscript, check each citation in the text against the References to ensure that they match exactly. Delete citations from the list if they are not actually cited in the text of the article. Citations in the text should be formatted as follows: (Smith 1990) or (Smith et al. 1998; Brock and Gunderson 2001; Felt 2006).

References. It is crucial to properly format the references, because all references will be linked electronically as much as possible to the papers they cite. For all references, list all authors. You can include a DOI number for the full-text article as an alternative to or in addition to traditional volume and page numbers. Please use the following style for the reference list:

Examples of such databases include, but are not limited to:
- Zoobank (www.zoobank.org),
- Morphbank (www.morphbank.net),
- Genbank (www.ncbi.nlm.nih.gov/genbank/),
- BarCode (www.barcodinglife.org)

Providing accession numbers allows linking to and from established databases and integrates your article with a broader collection of scientific information. Please list all accession numbers directly after the References.

International Code of Zoological Nomenclature. ZooKeys will publish papers only strictly following the rules of the 4th edition of the International Code of Zoological Nomenclature. Each first mentioning of an animal species name within the text must be provided with author(s)/name(s). Year of publication of animal species is recommended to be given in taxonomic revisions with providing full referencing of original description in the list of references.

Open Access Fees. Publication fees for larger papers will be considered for publishing as well. The journal charges Open Access Publication Fee (see Article Processing Charges: http://zookeys.pensoft.net/about/ArticleProcessingCharges). Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor. Open Access publication fees are usually covered by institutional funds and grants. Discounts waivers can be requested by private and retired zoologists, scientists from low- and middle-level income countries, post-graduate students, especially in case of exceptionally good manuscripts. Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

Printed Version. Offprints and printed issues of the journal can be purchased additionally (see journal’s website). For standing orders/subscriptions please contact the Manag- ing Editor.
