Abstract

A list of scale insects (Hemiptera: Sternorrhyncha: Coccoidea) of Iran is present based mainly on the literature records since 1902. In total, 13 families and 275 species have been recorded and these are listed along with their locality data and host plants. The families are as follows: Asterolecaniidae, Cerococcidae, Coccidae, Diaspididae, Eriococcidae, Kermesidae, Margarodidae, Monophlebidae, Ortheziidae, Phoenicococcidae, Pseudococcidae, Putoidae and Rhizoecidae. The following ten species are recorded for the first time from Iran: *Diaspidiotus lenticularis* (Lindinger), *D. wuenni* (Lindinger), *Fiorinia proboscitaria* Green, *Koroneaspis loniceriae* Borchsenius, *Eriococcus cingulatus* Kiritchenko, *E. pamiricus* (Bazarov), *E. reynei* Schmutterer, *E. sanguinairensis* Goux and *E. saxidesertus* (Borchsenius) and *Porphyrophora victoriae* Jashenko.

Keywords

Hemiptera, Sternorrhyncha, coccoidea, annotated checklist, host plants, Iran, new records, locality data

Introduction

Scale insects (superfamily Coccoidea) are sap-sucking hemipterous insects with an estimated 8000 species within 49 families, of which 16 are only known from fossils (Ben-Dov et al. 2013). They are closely related to the other Sternorrhyncha superfamilies: aphids (Aphidoidea), whiteflies (Aleyrodoidea) and jumping plant lice (Psylloidea)

(Gullan and Cook 2007). The taxonomy of the Coccoidea is mainly based on the microscopic cuticular features of the adult female, which is paedomorphic, maturing to a wingless juvenile form with functional mouthparts, whereas the adult male (when present) goes through “prepupal” and “pupal” stages and turns into an alate form with non-functional mouthparts (Kondo et al. 2008). The size of adult females varies from 1 mm in diameter in some diaspidids to 7–9 mm in several monophlebids. Some species are highly cryptic, living well hidden on their host plants, and are very hard to detect. This is particularly true of the immature stages, and these are frequently imported, causing major phytosanitary concerns. Many species of scale insects are economically important pests in agriculture, horticulture and forestry (Ben-Dov 2011–2012). However, only 13 families of scale insects have so far been recorded from Iran.

Although the scale insects of Iran have been relatively well studied, there is still a strong need for further investigations, including extensive collections of these families in Iran. Historically, the first scale insect recorded from Iran was *Asterolecanium bornmuel-leri* (Asterolecaniidae), associated with its host plant *Quercus persica* (Rübsaamen 1902). Lindinger (1905) wrote briefly on Iranian scale insects, describing *Salicicola kermanensis* on poplars. Subsequently Lindinger (1911) described *Parlatoria ephedrae* on *Ephedra nebrodenis* and recorded *Aonidiella orientalis* Newstead, on *Ficus* sp., and later he also reported *Diaspis syriaca* on *Pistacia* sp. (Lindinger 1931). Earlier, Green (1919) had recorded *Trabutina serpentina* on *Tamarix* sp., and later Archangelskaya (1937) recorded the following 12 species from Iran: *Orthezia urticae* (Linnaeus), *Palaeolecanium bituberculatum* (Signoret), *Eulecanium tiliae* (Linnaeus), *Sphaerolecanium prunastri* (Boyer de Fonscolombe), *Rhizopulvinaria artemisiae* (Signoret), *Pulvinaria vitis* (Linnaeus), *Anapulvinaria pistaciae* (Bodenheimer), *Parlatoria blanchardi* Targioni Tozzetti, *P. oleae* Colvée, *Lepidosaphes beckii* (Newman), *L. pistaciae* Archangelskaya and *Chlidaspis asiatica* (Archangelskaya). Afchar (1937) listed 31 scale insects from Iran. Bodenheimer (1944) was the first coccidologist to make a solo expedition to Iran, and he assembled a sizeable collection of Iranian coccoids, recording 34 species, of which two were new: *Pulvinaria gossypii* (Bodenheimer), and *Epidiaspis salicis* (Bodenheimer). Borchsenius (1952) added two further new species, *Targionia anabasisidis* (Borchsenius) and *Dynaspidiotus amygdalicola* Borchsenius. Balachowsky between the years 1937 and 1967 made the greatest contribution to the taxonomy of diaspidids in Iran, and jointly worked with other Iranian entomologists to significantly improve the understanding of the scale insect fauna of the country. Kaussari was the first Iranian coccidologist to extensively revise the diaspidid fauna of Iran, between 1946 and 1970. Later contributions are those of Farahbakhsh (1961), Asadeh and Mosaddegh (1991), Vahedi from 2001 through 2012, Vahedi and Gholami Mahfar (2010), Vahedi and Hodgson (2002, 2002a, 2007), Vahedi and Hodjat (1996), Torabi et al. (2010), Moghaddam (1999 to 2013), Moghaddam and Alikhani (2009, 2010), Moghaddam and Azadbakht (2006), Moghaddam and Bagheri (2011), Moghaddam and Tavakoli (2010), Moghaddam et al. (2004), Takagi and Moghaddam (2005) and Williams and Moghaddam (1999, 2007).

Additional information has been gleaned from the various catalogues by Borchsenius (1966), Ben-Dov (1993, 1994), Kozár (1998), Kozár and Walter (1985), Miller

and Gimpel (2000) and the check-lists of Iranian Coccoidea by Afchar (1937), Kozár et al. (1996), Seghatoleslami (1977) and Moghaddam (2004, 2009).

This present checklist is intended to facilitate access to the most recent data on Iranian Coccoidea for taxonomists and to update the recorded species from Iran. Only records in which Iran is specifically mentioned are cited.

The list contains all species of Coccoidea recorded up to March, 2013 and includes 275 species in 113 genera and 13 families: Asterolecaniidae (seven species.), Cerococcidae (one species), Coccidae (30 species), Diaspididae (151 species), Eriococcidae (14 species), Kermesidae (two species), Margarodidae (seven species), Monophlebidae (five species), Ortheziidae (one species), Phoenicococcidae (one species), Pseudococcidae (54 species), Putoidae (one species) and Rhizoecidae (one species). New records from Iran are marked with asterisks include *Diaspidiotus lenticularis* (Lindinger), *D. wuenni* (Lindinger), *Fiorinia proboscidea* Green, *Koroneaspis lonicerae* Borchsenius, *Eriococcus cingulatus* Kiritchenko, *E. pamiricus* (Bazarov), *E. reynei* Schmutterer, *E. sanguinairensis* Goux, *E. saxidesertus* (Borchsenius) and *Porphyrophora victoriae* Jashenko.

The following 32 species are currently only known from Iran: *Asterolecanium bornmuelleri* Rübsaamen, *Acanthomytilus kurdicus* (Bodenheimer), *Aspidaspis denticulobus* Kaussari & Balachowsky, *Chorizococcus viticola* Kaydan & Kozár, *Chortinaspis salavatiani* Balachowsky & Kaussari, *Coccidohystrix burumandi* Moghaddam, *Contigaspidiotus davatchii* Kaussari, *C. sarkissiani* (Kaussari & Balachowsky), *Diaspidiotus baiati* (Kaussari), *D. iranicus* Kaussari & Balachowsky, *D. platychaetae* Takagi & Moghaddam, *Diaspis carmanica* Davatchi & Balachowsky, *Dynaspidiotus amygdalicola* (Borchsenius), *D. medicus* Kaussari, *Eriococcus abaii* (Danzig), *Exallomochlus balouchestanensis* Moghaddam, *Melanaspis louristanus* Balachowsky & Kaussari, *Parlagena mckenziei* Balachowsky, *P. remaudierei* Kaussari, *Peliococcus ilamicus* Moghaddam, *Phenacoccus betae* Moghaddam, *P. iranica* Moghaddam, *P. karkasicus* Moghaddam, *P. salviacus* Moghaddam, *Polystomophora arakensis* Moghaddam, *Porphyrophora chelodonta* Vahedi, *Pseudotargionia orientalis* Balachowsky & Kaussari, *Rhodania aeluropi* Williams & Moghaddam, *Rungaspis avicenniae* Takagi & Moghaddam, *Spilococcus mirzayansi* (Moghaddam), *Targionia balachowskyi* (Kaussari), *Torosapis farsianus* (Balachowsky & Kaussari). These possibly endemic species are marked with black spots.

Notes on the checklist

The families are alphabetically ordered and are diagnosed based on the most recent classification of Coccoidea by Ben-Dov et al. (2013), except for Rhizoecidae that follows Hodgson (2012). The genera and species are listed under their families and ordered alphabetically, together with related references, host plants and collecting sites in Iran (Fig. 1). Further information is provided if there are either new host plant or new species records. Full reference citations can be found on ScaleNet (Ben-Dov et al. 2013).

Slide-mounted specimens of most of the species are deposited in the Coccoidea collection, Insect Taxonomy Research Department, Iranian Research Institute of Plant Protection (IRIPP), Tehran, Iran. Collections are also housed in the Natural History Museum, London, UK (BMNH); Muséum National d'Histoire Naturelle, Paris, France (MNHN); United States National Entomological Collection, U.S. National Museum of Natural History, Washington, D.C., USA (USNM); Department of Entomology, The Volcani Center, Bet Dagan, Israel (ICVI); Zoological Museum, Academy of Science, St. Petersburg, Russia (ZIRAS), Plant Protection Department, Faculty of Agriculture, Yuzuncu Yil University, Van, Turkey and Zoologisches Institut und Zoologisches Museum, Hamburg, Germany (ZMUH).

Family ASTEROLECANIIDAE

***Asterodiaspis bella* (Russell)**

Asterolecanium bellum Russell, 1941: 50.

Iran localities. Unknown.

Host plants. Fagaceae: *Quercus* sp.

References. Ben-Dov et al. (2013), Kozár et al. (1996).

***Asterodiaspis mina* (Russell)**

Asterolecanium minus Russell, 1941: 132.

Iran localities. Fars, Golestan.

Host plants. Fagaceae: *Quercus infectoria*.

References. Ben-Dov et al. (2013), Bodenheimer (1943, 1944), Farahbakhsh (1961), Kozár et al. (1996), Moghaddam (2009), Moghaddam and Tavakoli (2010).

***Asterodiaspis quercicola* (Bouché)**

Lecanium quercicola Bouché, 1851: 112. *Asterolecanium quercicola* Signoret, 1870.

Iran localities. Chaharmahal-Bakhtiari, Fars, Ilam, Kermanshah, Khuzestan, Kohgil-uyeh & Boyerahmad, Kordestan, Lorestan.

Host plants. Fagaceae: *Quercus* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1943), Farahbakhsh (1961), Kaussari (1957), Moghaddam (2009, 2010), Moghaddam and Tavakoli (2010).

● ***Asterolecanium bornmuelleri* Rübsaamen**

Asterolecanium bornmuelleri Rübsaamen, 1902: 316.

Iran localities. Fars.

Host plants. Fagaceae: *Quercus persica*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Fernald (1903), Kozár (1998), Kozár and Drozdják (1998), Lindinger (1912), Rübsaamen (1902), Russell (1941).

***Bambusaspis bambusae* (Boisduval)**

Asterolecanium bambusae Boisduval, 1869: 261.

Iran localities. Gilan.

Host plants. Poaceae: *Bambusa* sp.

References. Farahbakhsh (1961).

***Palmaspis phoenicis* (Ramachandra Rao)**

Asterolecanium phoenicis Ramachandra Rao, 1922: 11.

Iran localities. Bushehr, Esfahan, Fars, Khorasan -e Jonoubi, Sistan & Balouchistan, Yazd.

Host plants. Arecaceae: *Phoenix dactylifera*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1960), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2009).

***Russellaspis pustulans* (Cockerell)**

Asterodiaspis pustulans Cockerell, 1892: 142.

Iran localities. Unknown locality.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár (1998), Kozár et al. (1996), Stumpf and Lambdin (2006).

Family CEROCOCCIDAE***Cerococcus longipilosus* (Archangelskaya)**

Cerveoccus longipilosus Archangelskaya, 1930a: 81.

Iran localities. Ilam, Lorestan, Yazd.

Host plants. Asteraceae: *Lactuca orientalis*.

References. Ben-Dov et al. (2013), Kaussari (1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2009, 2010), Moghaddam and Tavakoli (2010).

Family COCCIDAE

Acantholecanium haloxytoni (Hall)

Ctenochiton haloxytoni Hall, 1926: 17.

Iran localities. Azarbaijan -e Garbi, Esfahan, Semnan, Yazd.

Host plants. Amaranthaceae: *Haloxylon* sp., *Noaea mucronata*.

References. Ben-Dov et al. (2013), Moghaddam (2009).

Acanthopulvinaria orientalis (Nazonov)

Pulvinaria orientalis Nasonov, 1908: 493.

Iran localities. Esfahan, Hamadan, Golestan, Kerman, Khorasan -e Shomali, Sistan & Balouchestan.

Host plants. Amaranthaceae: *Halocnemum strobilaceum*, *Haloxylon* sp., *Noaea mucronata*, *Salsola oppositifolia*; Asteraceae: *Achillea* sp., *Artemisia* sp.; Rosaceae: *Prunus lycioides*; Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Kozár (1998), Kozár et al. (1996), Moghaddam (2009, 2010), Moghaddam and Tavakoli (2010).

Notes. This is the first record for *A. orientalis* from the plant family Rosaceae.

Anapulvinaria pistaciae (Bodenheimer)

Pulvinaria pistaciae Bodenheimer, 1926: 189.

Iran localities. Hormozgan, Kerman, Khorasan -e Jonoubi, Sistan & Balouchestan, Yazd.

Host plants. Anacardiaceae: *Pistacia khinjuk*, *Rhus coriaria*; Juglandaceae: *Juglans regia*; Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2009).

Notes. This is the first record of *A. pistaciae* from the plant family Juglandaceae.

Bodenheimera rachelae (Bodenheimer)

Lecanium (Eulecanium) rachelae Bodenheimer, 1924: 68.

Iran localities. Ilam, Kermanshah, Lorestan.

Host plants. Lamiaceae: *Vitex* cf. *Pseudonegundo*.

References. Ben-Dov (1969), Ben-Dov et al. (2013), Bodenheimer (1944), Kozár (1998), Kozár et al. (1996), Moghaddam (2009), Moghaddam and Tavakoli (2010).

***Ceroplastes floridensis* Comstock**

Ceroplastes floridensis Comstock, 1881: 331.

Iran localities. Ardabil, Fars, Gilan, Mazandaran.

Host plants. Araliaceae: *Hedera pastuchowii*; Ebenaceae: *Diospyros kaki*; Moraceae: *Ficus benjamina*; Pinaceae: *Cedrus* sp.; Rosaceae: *Cydonia oblonga*; Rutaceae: *Citrus sinensis*; Taxodiaceae: *Metasequoia glyptostroboides*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009, 2010).

Notes. These are the first records of *C. floridensis* from plant families Moraceae and Taxodiaceae.

***Ceroplastes rusci* (Linnaeus)**

Coccus rusci Linnaeus, 1758: 456.

Iran localities. Fars, Kohgiluyeh & Boyerahmad, Lorestan, Sistan & Balouchestan.

Host plants. Moraceae: *Ficus carica*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1946a), Kozár et al. (1996), Moghaddam (2009) and Moghaddam and Tavakoli (2010).

***Ceroplastes sinensis* Del Guercio**

Ceroplastes sinensis Del Guercio, 1900: 3.

Iran localities. Gilan, Mazandaran.

Host plants. Lythraceae: *Punica granatum*; Rosaceae: *Rosa* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2009, 2010).

Notes. This is the first record of *C. sinensis* from the plant family Lythraceae

***Coccus hesperidum* Linnaeus**

Coccus hesperidum Linnaeus, 1758: 455.

Iran localities. Elborz, Esfahan, Fars, Gilan, Golestan, Khuzestan, Markazi, Mazandaran, Sistan & Baluchestan, Tehran.

Host plants. Apocynaceae: *Nerium oleander*; Aquifoliaceae: *Ilex* sp.; Asparagaceae: *Yucca baccata*; Fabaceae: *Alhagi camelorum*, *Cercis siliquastrum*, *Robinia pseudo-acacia*; Lauraceae: *Laurus nobilis*; Lycopodiaceae: *Lycopodium clavatum*; Lythraceae: *Punica granatum*; Moraceae: *Ficus benjamina*, *F. carica*, *Morus alba*; Myrsinaceae: *Cyclamen coum*; Nyctaginaceae: *Mirabilis jalapa*; Rosaceae: *Prunus armeniaca*; Rutaceae: *Citrus sinensis*, Ulmaceae: *Ulmus campestris*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kausari (1946, 1957), Kozár et al. (1996), Moghaddam (2009, 2010) and Torabi et al. (2010).

Notes. These are the first records of *C. hesperidum* from the plant families Aquifoliaceae, Asparagaceae, Lycopodiaceae, Moraceae and Rosaceae.

***Coccus pseudomagnoliarum* (Kuwana)**

Lecanium (Eulecanium) pseudomagnoliarum Kuwana, 1914: 7.

Iran localities. Golestan.

Host plant. Rutaceae: *Citrus* sp.

References. Ben-Dov (1993), Ben-Dov et al. (2013), Farahbakhsh (1961), Kausari (1946, 1957), Kozár (1998) and Kozár et al. (1996).

***Didesmococcus unifasciatus* (Archangelskaya)**

Physokermes unifasciatus Archangelskaya, 1923: 265.

Iran localities. Azarbaijan -e Sharghi, Kermanshah, Markazi.

Host plants. Rosaceae: *Prunus amygdalus*, *P. persica*.

References. Ben-Dov et al. (2013), Kozár et al. (1996), Moghaddam (2009) and Moghaddam and Tavakoli (2010).

***Eriopeltis festucae* (Boyer de Fonscolombe)**

Coccus festucae Boyer de Fonscolombe, 1834: 216.

Iran localities. Chaharmahal-Bakhtiari, Mazandaran, Zanjan.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Kozár et al. (1996), Moghaddam (2009).

***Eulecanium ficiphilum* Borchsenius**

Eulecanium ficiphilum Borchsenius, 1955: 293.

Iran localities. Azarbaijan -e Garbi.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár (1998) and Kozár et al. (1996).

***Eulecanium rugulosum* (Archangelskaya)**

Lecanium rugulosum Archangelskaya, 1937: 46.

Iran localities. Fars, Kermanshah.

Host plants. Anacardiaceae: *Pistacia* sp.; Betulaceae: *Corylus avellana*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1957), Kozár et al. (1996) and Moghaddam (2009).

Notes. This is the first record of *E. rugulosum* from the plant family Betulaceae.

***Eulecanium tiliae* (Linnaeus)**

Coccus tiliae Linnaeus, 1758: 456. *Eulecanium coryli* Cockerell, 1901 (nomen nudum).

Iran localities. Esfahan, Kerman, Kermanshah, Sistan & Balouchestan, Tehran.

Host plants. Anacardiaceae: *Pistacia khinjuk*; Rosaceae: *Cydonia oblonga*, *Malus domestica*, *Prunus caspica*, *P. reutri*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Davoodi et al. (2002), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2009) and Moghaddam and Tavakoli (2010).

***Exaeretopus tritici* Williams**

Exaeretopus tritici Williams, 1977: 281.

Iran localities. Lorestan.

Host plants. Poaceae: *Hordeum* sp.

References. Ben-Dov et al. (2013), Moghaddam (2009), Moghaddam and Azad-bakht (2006) and Moghaddam and Tavakoli (2010).

***Hadzibejliaspis stipae* (Hadzibejli)**

Exaeretopus stipae Hadzibejli, 1960: 310.

Iran localities. Kermanshah.

Host plants. Poaceae.

References. Ben-Dov et al. (2013) and Torabi et al. (2010).

***Palaeolecanium bituberculatum* (Signoret)**

Lecanium bituberculatum Signoret, 1873a: 414. *Eulecanium bituberculatum* Fernald, 1903 (nomen nudum).

Iran localities. Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Esfahan, Kerman, Kermanshah.

Host plants. Moraceae: *Morus alba*; Rosaceae: *Crataegus azarollus*, *Malus domestica*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1957), Kozár (1998) and Moghaddam (2009).

Notes. This is the first record of *P. bituberculatum* from the plant family Moraceae.

***Parthenolecanium corni* (Bouché)**

Lecanium corni Bouché, 1844: 298. *Eulecanium corni* Fernald, 1903.

Iran localities. Azarbaijan -e Garbi, Tehran.

Host plants. Betulaceae: *Corylus avellana*; Oleaceae: *Fraxinus excelsior*; Solanaceae: *Solanum tuberosum*.

References. Afchar (1937), Ben-Dov (1993), Ben-Dov et al. (2013), Kaussari (1957), Kozár (1998) and Moghaddam (2009).

Notes. This is the first record of *P. corni* from the plant family Solanaceae.

***Parthenolecanium persicae* (Fabricius)**

Chermes persicae Fabricius, 1776: 304. *Lecanium persicae* Bouché, 1844.

Iran localities. Esfahan, Kermanshah, Tehran.

Host plants. Moraceae: *Morus alba*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1957), Kozár et al. (1996) and Moghaddam (2009).

***Pulvinaria aurantii* Cockerell**

Pulvinaria aurantii Cockerell, 1896: 19. *Chloropulvinaria aurantii* Borchsenius, 1952.

Iran localities. Gilan, Golestan, Mazandaran, Sistan & Balouchestan.

Host plants. Moraceae: *Morus alba*; Myrtaceae: *Psidium guajava*; Rutaceae: *Citrus bigaradia*, *C. sinensis*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009, 2010).

Notes. These are the first records of *P. aurantii* from the plant families Moraceae and Myrtaceae.

***Pulvinaria floccifera* (Westwood)**

Coccus flocciferus Westwood, 1870: 308. *Chloropulvinaria floccifera* Borchsenius, 1952.

Iran localities. Mazandaran, Gilan.

Host plants. Aquifoliaceae: *Ilex spinigera*; Rosaceae: *Mespilus germanica*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Davatchi (1946), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009, 2010).

● *Pulvinaria gossypii* (Bodenheimer)

Filippia gossypii Bodenheimer, 1944: 89.

Iran localities. Sistan & Balouchestan.

Host plants. Malvaceae: *Gossypium* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1957), Kozár (1998) and Kozár et al. (1996).

***Pulvinaria vitis* (Linnaeus)**

Coccus vitis Linnaeus, 1758: 455. *Pulvinaria betulae* Signoret, 1873

Iran localities. Esfahan, Fars, Gilan, Ilam, Kermanshah, Khorasan -e Razavi, Mazandaran, Tehran, Yazd.

Host plants. Betulaceae: *Alnus* sp.; Fabaceae: *Robinia* sp.; Moraceae: *Ficus carica*; Rosaceae: *Pyrus communis*; Salicaceae: *Salix* sp.; Vitaceae: *Vitis persica*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1957), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009, 2010).

Notes. These are the first records of *P. vitis* from the plant families Fabaceae and Moraceae.

***Rhizopulvinaria artemisiae* (Signoret)**

Pulvinaria artemisiae Signoret, 1873: 31. *Rhizopulvinaria minima* Borchsenius, 1952.
Rhizopulvinaria virgulata Borchsenius, 1952.

Iran localities. Ardabil, Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Esfahan, Fars, Golestan, Kerman, Kermanshah, Kohgilouyeh & Boyerahmad, Kordestan, Lorestan, Yazd and Zanjan.

Host plants. Amaranthaceae: *Noaea mucrunata*; Asteraceae: *Achillea* sp., *Echinops ritro*, *Carthamus oxyacantha*; Fabaceae: *Astragalus* sp.; Rosaceae: *Prunus scoparia*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kozár (1998), Kozár et al. (1996) and Moghaddam (2001, 2009, 2010).

***Rhizopulvinaria turkestanica* (Archangelskaya)**

Pulvinaria artemisiae turkestanica Archangelskaya, 1931: 81.

Iran localities. Ardebil, Ilam, Kermanshah, Khorasan -e Shomali, Kordestan, Lorestan.

Host plants. Amaranthaceae: *Noaea mucronata*; Asteraceae: *Carthamus oxyacantha*.

References. Moghaddam and Tavakoli (2010).

***Rhodococcus turanicus* (Archangelskaya)**

Lecanium coryli turanicum Archangelskaya, 1937: 47.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár (1998) and Kozár et al. (1996).

***Saissetia coffeae* (Walker)**

Lecanium coffeae Walker, 1852: 1079. *Saissetia hemisphaerica* Hall, 1922.

Iran localities. Gilan.

Host plants. Celastraceae: *Evonymus* sp.; Cycadaceae: *Cycas* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1957) and Kozár et al. (1996).

***Saissetia oleae* (Olivier)**

Coccus oleae Olivier, 1791: 95.

Iran localities. Gilan, Mazandaran, Tehran.

Host plants. Apocynaceae: *Nerium oleander*; Oleaceae: *Olea europea*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1957), Ahmad (1975), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009, 2010).

***Sphaerolecanium prunastri* (Boyer de Fonscolombe)**

Coccus prunastri Boyer de Fonscolombe, 1834: 211. *Eulecanium prunastri* Fernald, 1903.

Iran localities. Azarbaijan -e Sharghi, Esfahan, Tehran, Yazd.

Host plants. Rosaceae: *Prunus amygdalus*, *P. reuteri*, *P. scoparia*, *Prunus* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Kaussari (1957), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009, 2010).

***Stotzia ephedrae* (Newstead)**

Lichtensia ephedrae Newstead, 1901: 83. *Filippia ephedrae* Lindinger, 1912.

Iran localities. Esfahan, Fars, Kerman, Yazd.

Host plants. Ephedraceae: *Ephedra* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996) and Moghaddam (2009).

Family DIASPIDIDAE

***Acanthomytilus intermittens* (Hall)**

Lepidosaphes intermittens Hall, 1924: 7.

Iran localities. Sistan & Balouchestan.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Balachowsky (1954), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955), Kozár and Walter (1985) and Kozár et al. (1996).

● *Acanthomytilus kurdicus* (Bodenheimer)

Mytilococcus kurdicus Bodenheimer, 1943: 5.

Iran localities. Kohgilouyeh & Boyerahmad, Esfahan, Fars, Gilan, Hormozgan, Sistan & Balouchestan, Tehran.

Host plants. Aceraceae: *Acer cinerascens*; Fabaceae: *Prosopis spicigera*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Kaussari (1964), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Aonidiella aurantii (Maskell)

Aspidiotus aurantii Maskell, 1879: 199.

Iran localities. Gilan, Golestan, Mazandaran, Tehran.

Host plants. Lythraceae: *Punica granatum*; Rosaceae: *Amygdalus persica*; Oleaceae: *Olea europaea*; Rutaceae: *Citrus sinensis*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1955), Kaussari and Farahbakhsh (1968), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *A. aurantii* from the plant family Lythraceae.

Aonidiella citrina (Coquillett)

Aspidiotus citrinus Coquillett, 1891: 29.

Iran localities. Gilan, Golestan, Mazandaran.

Host plants. Cornaceae: *Cornus* sp.; Rutaceae: *Citrus bigaradia*, *C. limetta*.

References. Ben-Dov et al. (2013), CAB International (1997), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *A. citrina* from the plant family Cornaceae

***Aonidiella orientalis* (Newstead)**

Aspidiotus orientalis Newstead, 1894: 26.

Iran localities. Bushehr, Fars, Hormozgan, Khouzestan, Sistan & Balouchestan.

Host plants. Anacardiaceae: *Mangifera indica*; Apocynaceae: *Calotropis procera*, *Nerium oleander*, *Periploca aphylla*; Arecaceae: *Cocos nucifera*, *Phoenix dactylifera*; Boraginaceae: *Cordia myxa*; Fabaceae: *Albizia julibrissin*, *Ceratonia siliqua*, *Dalbergia sissoo*, *Prosopis spicigera*, *Tamarindus indica*; Lythraceae: *Punica granatum*; Musaceae: *Musa sapientum*; Myrtaceae: *Callistemon lophanthus*, *Myrtus communis*, *Psidium guajava*, *Syzygium aromaticum*; Rhamnaceae: *Ziziphus spina-christi*; Rutaceae: *Citrus bigaradia*, *C. limon*, *C. limetta*, *C. sinensis*; Salicaceae: *Salix* sp.; Sapotaceae: *Manilkara zapota*; Tamaricaceae: *Tamarix indica*.

References. Ben-Dov et al. (2013), Bodenheimer (1944, 1944a), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946a, 1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Lindinger (1909), Moghaddam (2004), Rosen and DeBach (1979) and Seghatoleslami (1977).

Notes. This is the first record of *A. orientalis* from the plant family Tamaricaceae.

● *Aspidaspis dentilobus* Kaussari & Balachowsky

Aspidaspis dentilobus Kaussari & Balachowsky, 1953a: 99.

Iran localities. Esfahan, Fars, Kerman, Kohgilouyeh & Boyerahmad.

Host plants. Polygonaceae: *Atraphaxis spinosa*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1964, 1955), Kaussari and Balachowsky (1953b), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Aspidiotus destructor* Signoret**

Aspidiotus destructor Signoret, 1869: 120.

Iran localities. Khouzestan, Sistan & Balouchestan.

Host plants. Arecaceae: *Nannorrhops ritchiana*; Musaceae: *Musa sapientum*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998) and Moghaddam (2004).

***Aspidiotus nerii* Bouché**

Aspidiotus nerii Bouché, 1833: 52.

Iran localities. Elborz, Esfahan, Fars, Gilan, Markazi, Golestan, Mazandaran, Tehran.

Host plants. Apocynaceae: *Nerium oleander*; Araliaceae: *Hedera canariensis*; Arecaceae: *Phoenix* sp.; Asparagaceae: *Asparagus officinalis*; Oleaceae: *Olea europaea*; Orchidaceae: *Maxillaria longipetala*; Pinaceae: *Pinus* sp.; Tamaricaceae: *Tamarix* sp.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Davatchi (1946), Farahbakhsh (1961), Kaussari (1946, 1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. These are the first records of *A. nerii* from the plant families Asparagaceae and Tamaricaceae.

***Aulacaspis phoenicis* (Green)**

Diaspis phoenicis Green, 1922: 1014.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Kozár et al. (1996).

***Aulacaspis rosae* (Bouché)**

Aspidiotus rosae Bouché, 1833: 53.

Iran localities. Ardabil, Gilan, Mazandaran, Tehran.

Host plants. Rosaceae: *Rosa* sp., *Rubus fruticosus*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Davatchi (1946), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Miller and Davidson (2005), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Balachowskiella salvadorae* Kaussari**

Balachowskiella salvadorae Kaussari, 1955a: 230–232.

Iran localities. Hormozgan, Sistan & Balouchestan.

Host plants. Salvadoraceae: *Salvadora persica*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955a, 1957, 1964), Kozár et al. (1996), Seghatoleslami (1977), Moghaddam (2004) and Takagi and Moghaddam (2005).

Carulaspis juniperi (Bouché)

Aspidiotus Juniperi Bouché, 1851: 112.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Borchsenius (1966), Kozár (1998), Kozár et al. (1996) and Miller and Davidson (2005).

Carulaspis minima (Signoret)

Diaspis carueli Signoret, 1869d: 436. *Carulaspis caruelii* Borchsenius, 1966.

Iran localities. Golestan, Mazandaran.

Host plants. Cupressaceae: *Cupressus* sp., *Thuja orientalis*; Taxaceae: *Taxus* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996), Miller and Davidson (2005), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *C. minima* from the plant family Taxaceae.

Carulaspis visci (Schrank)

Coccus visci Schrank, 1781: 296. *Diaspis visci* Löw, 1872.

Iran localities. Tehran.

Host plants. Cupressaceae: *Thuja* sp.

References. Bodenheimer (1944).

Chionaspis etrusca Leonardi

Chionaspis etrusca Leonardi, 1908: 184–186.

Iran localities. Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Gilan, Kermanshah.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Moghaddam and Tavakoli (2010).

***Chionaspis lepineyi* Balachowsky**

Chionaspis lepineyi Balachowsky, 1928: 273–277. *Chionaspis parastigma* Balachowsky, 1954.

Iran localities. Chaharmahal-Bakhtiari, Fars, Kohgilouyeh & Boyerahmad, Ilam, Lorestan.

Host plants. Fagaceae: *Quercus* sp.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1964), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Chionaspis salicis* (Linnaeus)**

Coccus salicis Linnaeus, 1758: 456. *Chionaspis polypora* Borchsenius, 1949.

Iran localities. Ardabil, Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Gilan, Golestan, Hamadan, Ilam, Mazandaran, Semnan, Tehran.

Host plants. Betulaceae *Alnus* sp.; Fagaceae: *Quercus* sp.; Oleaceae: *Fraxinus excelsior*; Salicaceae: *Populus nigra*, *Salix* sp.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Chlidaspis asiatica* (Archangelskaya)**

Chionaspis asiatica Archangelskaya, 1930a: 93. *Chlidaspis prunorum* Borchsenius, 1949. *Phenacaspis prunorum* Borchsenius, 1939. *Tecaspis asiatica* Balachowsky, 1954. *Tecaspis prunorum* Balachowsky, 1954. *Voraspis adlei* Balachowsky & Kaussari, 1955.

Iran localities. Chaharmahal-Bakhtiari, Elborz, Esfahan, Fars, Hamadan, Kerman, Kermanshah, Khorasan -e Shomali, Kordestan, Kohgilouyeh & Boyerahmad, Lorestan, Sistan & Balouchestan, Tehran, Yazd.

Host plants. Rosaceae: *Malus domestica*, *Prunus amygdalus*, *P. armeniaca*, *P. domestica*, *P. lycioides*, *P. persica*, *P. scoparia*, *P. spinosa*, *Pyrus amygdaliformis* and *P. communis*.

References. Afchar (1937), Archangelskaya (1930), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1964), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

● *Chortinaspis salavatiani* Balachowsky & Kaussari

Chortinaspis salavatiani Balachowsky & Kaussari, 1951: 2.

Iran localities. Kermanshah, Sistan & Balouchestan.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Balachowsky and Kaussari (1951), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Seghatoleslami (1977) and Torabi et al. (2010).

Chrysomphalus dictyospermi (Morgan)

Aspidiotus dictyospermi Morgan, 1889: 352.

Iran localities. Gilan, Mazandaran, Tehran, Zanjan.

Host plants. Apiaceae: *Actinolema eryngioides*; Arecaceae: *Howea forsteriana*, *Phoenix* sp.; Asparagaceae: *Beaucarnea recurvata*, *Dracaena* sp.; Buxaceae: *Buxus hyrcana*; Fabaceae: *Robinia* sp.; Moraceae: *Ficus benjamina*; Oleaceae: *Olea europea*; Pinaceae: *Pinus* sp.; Rutaceae: *Citrus sinensis*; Strelitziaceae: *Strelitzia alba*; Theaceae: *Camellia sinensis*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. These are the first records of *C. dictyospermi* from the plant families Apiaceae and Asparagaceae.

Chrysomphalus pinnulifer (Maskell)

Diaspis pinnulifera Maskell, 1891: 4.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Kozár et al. (1996)

● *Contigaspis davatchii* Kaussari

Contigaspis davatchii Kaussari, 1959: 131–134.

Iran localities. Esfahan, Kohgilouyeh & Boyerahmad.

Host plants. Amaranthaceae: *Noaea mucronata*; Asteraceae: *Cousinia* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1959, 1964), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Notes. This is the first record of *C. davatchii* from the plant family Amaranthaceae.

***Contigaspis farsetiae* (Hall)**

Cocomytilus farsetiae Hall, 1926: 23–24. *Eremohallaspis farsetiae* Balachowsky, 1954.

Artemisaspis farsetiae Borchsenius & Williams, 1963.

Iran localities. Azarbaijan -e Garbi, Esfahan, Kerman, Khorasan -e Razavi, Sistan & Balouchestan.

Host plants. Amaranthaceae: *Anabasis* sp., *Salsola* sp., *Seidlitzia rosmarinus*; Asteraceae: *Artemisia abrotanum*; Polygonaceae: *Atraphaxis spinosa*, *Calligonum comosum*; Zygophyllaceae: *Zygophyllum eurypteris*.

References. Balachowsky (1954), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

● ***Contigaspis sarkissiani* (Kaussari & Balachowsky)**

Paragadaspis sarkissiani Kaussari & Balachowsky in Balachowsky 1954: 162.

Iran localities. Esfahan, Golestan, Kerman, Yazd.

Host plants. Asteraceae: *Artemisia* sp.; Boraginaceae: *Heliotropium* sp.; Fabaceae: *Astragalus* sp.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1964), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *C. sarkissiani* from the plant family Fabaceae.

***Contigaspis zillae* (Hall)**

Pinnaspis zillae Hall, 1923: 27–28.

Iran localities. Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Golestan, Hormozgan, Sistan & Balouchestan, Tehran.

Host plants. Amaranthaceae: *Bassia prostrata*; Boraginaceae: *Heliotropium* sp.; Fabaceae: *Indigofera argentea*; Lamiaceae: *Thymus vulgaris*; Rosaceae: *Crataegus azarollus*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Borchsenius and Williams (1963), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2010) and Seghatoleslami (1977).

Notes. These are the first records of *C. zillae* from the plant families Lamiaceae and Rosaceae.

***Cryptoparlatoresopsis halli* (Bodenheimer)**

Aonidia halli Bodenheimer, 1929: 104–105.

Iran localities. Kerman, Khorasan -e Shomali, Sistan & Balouchestan.

Host plants. Lythraceae: *Punica granatum*; Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Notes. This is the first record of *C. halli* from the plant family Lythraceae.

***Cryptoparlatoresopsis meccae* (Hall)**

Targionia meccae Hall, 1927: 263–265.

Iran localities. Sistan & Balouchestan.

Host plants. Rhamnaceae: *Ziziphus spina-christi*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996) and Moghaddam (2004).

***Cryptoparlatoresopsis tlaiae* (Balachowsky)**

Aonidia tlaiae Balachowsky, 1927: 200.

Iran localities. Hormozgan, Sistan & Balouchestan.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Diaspidiotus armenicus* (Borchsenius)**

Aspidiotus armenicus Borchsenius, 1935: 132.

Iran localities. Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Esfahan, Fars, Lorestan, Sistan & Balouchestan, Tehran.

Host plants. Salicaceae: *Populus alba*, *Salix* sp.

References. Balachowsky (1950a), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

● ***Diaspidiotus baiati* (Kaussari)**

Quadraspidotus baiati Kaussari, 1958: 232.

Iran localities. Ardabil, Chaharmahal-Bakhtiari, Fars, Ilam, Khuzestan, Kohgiluyeh & Boyerahmad, Lorestan.

Host plants. Ephedraceae: *Ephedra* sp.; Fabaceae: *Astragalus* sp.; Fagaceae: *Castanea sativa*; Thymelaeaceae: *Daphne angustifolia*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Kaussari (1958, 1964), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. These are the first records of *D. baiati* from the plant families Ephedraceae and Fagaceae.

***Diaspidiotus caucasicus* (Borchsenius)**

Aspidiotus caucasicus Borchsenius, 1935: 130.

Iran localities. Fars, Kerman, Khorasan -e Shomali, Kohgiluyeh & Boyerahmad, Sistan & Balouchestan.

Host plants. Salicaceae: *Salix* sp.

References. Ben-Dov et al. (2013), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Diaspidiotus ceconii* (Leonardi)**

Hemiberlesia ceconii Leonardi, 1908: 188. *Quadraspidotus ceconii* Balachowsky, 1950.

Iran localities. Azarbaijan -e Garbi, Esfahan, Fars, Hamadan, Kerman, Kordestan.

Host plants. Amaranthaceae: *Noaea mucronata*; Rosaceae: *Cotoneaster vulgaris*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. This is the first record of *D. cocconii* from the plant family Rosaceae.

***Diaspidiotus elaeagni* (Borchsenius)**

Diaspidiotus elaeagni Borchsenius, 1939: 35.

Iran localities. Kermanshah, Kohgilouyeh & Boyerahmad.

Host plants. Fagaceae: *Quercus* sp.; Rosaceae: *Prunus* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Kozár (1998), Kozár et al. (1996) and Torabi et al. (2010).

Notes. This is the first record of *D. elaeagni* from the plant family Fagaceae.

***Diaspidiotus farahbakhchi* Kaussari**

Diaspidiotus farahbakhchi Kaussari, 1955a: 235.

Iran localities. Mazandaran.

Host plants. Fagaceae: *Quercus* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955a, 1957, 1964), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

• *Diaspidiotus iranicus* Kaussari & Balachowsky

Diaspidiotus iranicus Kaussari & Balachowsky, 1953: 24.

Iran localities. Esfahan, Fars, Kerman, Kermanshah, Khorasan -e Shomali, Kohgilouyeh & Boyerahmad, Sistan & Balouchestan.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari and Balachowsky (1953), Kaussari (1955, 1964), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Diaspidiotus kaussarii* Balachowsky**

Diaspidiotus kaussari Balachowsky, 1950a: 494 (misspelling in Ben-Dov et al. 2013).

Iran localities. Azarbaijan -e Sharghi, Kerman, Khorasan -e Shomali, Tehran.

Host plants. Salicaceae: *Populus alba*, *Salix* sp.

References. Balachowsky (1950a), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1964), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Diaspidiotus laperrinei* (Balachowsky)**

Aspidiotus (Hemiberlesia) laperrinei Balachowsky, 1929: 314.

Iran localities. Sistan & Balouchestan.

Host plants. Polygonaceae: *Calligonum* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968) and Kozár et al. (1996).

****Diaspidiotus lenticularis* (Lindinger)**

Aspidiotus lenticularis Lindinger, 1912: 149.

Iran localities. Fars.

Host plants. Moraceae: *Ficus carica*.

Notes. This the first record of *D. lenticularis* from Iran, identified by B. Kaydan.

***Diaspidiotus ostreaeformis* (Curtis)**

Aspidiotus ostreaeformis Curtis, 1843a: 805. *Quadraspidiotus ostreaeformis* MacGillivray, 1921.

Iran localities. Chaharmahal-Bakhtiari, Mazandaran, Tehran.

Host plants. Oleaceae: *Fraxinus excelsior*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1955), Kozár (1998) and Kozár et al. (1996).

***Diaspidiotus perniciosus* (Comstock)**

Aspidiotus perniciosus Comstock, 1881: 304.

Iran localities. Ardabil, Gilan, Mazandaran.

Host plants. Cucurbitaceae: *Citrullus vulgaris*; Rosaceae: *Malus domestica*, *Prunus* sp., *Rosa* sp.; Salicaceae: *Populus euramericana*, *P. nigra*.

References. Ben-Dov et al. (2013), CABI (1986), Kaussari and Farahbakhsh (1968), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *D. perniciosus* from the plant family Cucurbitaceae.

• *Diaspidiotus platychaetae* Takagi & Moghaddam

Diaspidiotus platychatae Takagi & Moghaddam, 2005: 54 (Misspelling of species name in Ben-Dov et al. 2013).

Iran localities. Khuzestan.

Host plants. Asteraceae: *Platychaeta mucronifolia*.

References. Ben-Dov et al. (2013), Takagi and Moghaddam (2005).

***Diaspidiotus prunorum* (Laing)**

Aspidiotus prunorum Laing, 1931: 99.

Iran localities. Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Esfahan, Fars, Golestan, Hamadan, Kerman, Kermanshah, Khorasan -e Shomali, Kohgiluyeh & Boyerahmad, Kordestan, Lorestan, Mazandaran, Tehran, Yazd.

Host plants. Asteraceae: *Echinops ritro*; Rosaceae: *Malus domestica*, *Persica vulgaris*, *Prunus amygdalus*, *P. armeniaca*, *P. avium*, *P. cerasus*, *P. domestica*, *P. lycioides*, *P. persica*, *A. reuteri* *P. spinosa*, *Rosa* sp.; Tamaricaceae: *Tamarix* sp.

References. Balachowsky (1950a), Ben-Dov et al. (2013), Borchsenius (1966), Dastgheyb-Beheshti et al. (1988), Farahbakhsh (1961), Kaussari (1946, 1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. This is the first record of *D. prunorum* from the plant family Tamaricaceae.

***Diaspidiotus pyri* (Lichtenstein)**

Aspidiotus pyri Lichtenstein, 1881: lii. *Quadraspidotus pyri* Lupo, 1948.

Iran localities. Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Khorasan -e Razavi.

Host plants. Rosaceae: *Malus domestica*, *Prunus* sp., *Pyrus communis*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1946, 1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Diaspidiotus slavonicus* (Green)**

Targionia slavonica Green, 1934a: 95. *Quadraspidiotus slavonicus* Green, 1934. *Quadraspidiotus populi* Bodenheimer, 1943.

Iran localities. Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Elborz, Golestan, Khorasan -e Shomali, Lorestan, Markazi, Sistan & Balouchestan.

Host plants. Oleaceae: *Fraxinus excelsior*; Salicaceae: *Populus euphratica*, *Salix caprica*.

References. Ben-Dov et al. (2013), Bodenheimer (1944, 1944a), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. This is the first record of *D. slavonicus* from the plant family Oleaceae.

***Diaspidiotus transcaspensis* (Marlatt)**

Aspidiotus (Diaspidiotus) transcaspensis Marlatt, 1908: 21.

Iran localities. Esfahan, Golestan, Kerman.

Host plants. Rosaceae: *Cotoneaster kotschyi*, *Prunus armeniaca*; Fagaceae: *Quercus castaneifolia*; Salicaceae: *Populus* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *D. transcaspensis* from the plant family Rosaceae.

***Diaspidiotus turanicus* (Borchsenius)**

Aspidiotus turanicus Borchsenius, 1935: 131.

Iran localities. Elborz, Kerman, Khorasan -e Shomali, Lorestan, Tehran, Zanjan.

Host plants. Salicaceae: *Populus* sp., *Salix* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

****Diaspidiotus wuenni* (Lindinger)**

Aspidiotus wuenni Lindinger, 1923: 147.

Iran localities. Kermanshah.

Host plants. Fagaceae: *Quercus* sp.

Notes. This is the first record of *D. wuenni* from Iran, identified by B. Kayadan.

***Diaspidiotus zonatus* (Frauenfeld)**

Aspidiotus zonatus Frauenfeld, 1868: 888.

Iran localities. Fars, Kohgilouyeh & Boyerahmad, Kordestan.

Host plants. Fagaceae: *Quercus* sp.; Juglandaceae: *Juglans regia*; Moraceae: *Ficus carica*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Moghaddam (2004), Kozár et al. (1996).

***Diaspis boisduvalii* Signoret**

Diaspis boisduvalii Signoret, 1869b: 432–433.

Iran localities. Gilan.

Host plants. Arecaceae: *Chamaerops* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2010) and Seghatoleslami (1977).

●*Diaspis carmanica* Davatchi & Balachowsky

Diaspis carmanicus Davatchi & Balachowsky, 1956: 106–109.

Iran localities. Fars, Kerman.

Host plants. Anacardiaceae: *Pistacia khinjuk*.

References. Ben-Dov et al. (2013), Davatchi and Balachowsky (1956), Farahbakhsh (1961), Kaussari (1964), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

***Diaspis echinocacti* (Bouché)**

Aspidiotus echinocacti Bouché, 1833: 53. *Diaspis calyptroides* Costa, 1829.

Iran localities. Tehran.

Host plants. Cactaceae: *Opuntia* sp.

References. Ben-Dov et al. (2013) and Bodenheimer (1944).

***Diaspis syriaca* Lindinger**

Diaspis syriaca Lindinger, 1912: 264.

Iran localities. Kermanshah.

Host plants. Anacardiaceae: *Pistacia khinjuk*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955), Kozár (1998) and Kozár et al. (1996).

***Duplachionaspis graminella* (Borchsenius)**

Chionaspis graminella Borchsenius, 1949: 348.

Iran localities. Ilam, Kerman.

Host plants. Poaceae: *Phragmites australis*.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996) and Moghaddam and Tavakoli (2010).

***Duplachionaspis natalensis* (Maskell)**

Chionaspis spartinae natalensis Maskell, 1896: 390–391. *Duplachionaspis stanotophri* Hall, 1946.

Iran localities. Kerman, Sistan & Balouchestan.

Host plants. Poaceae: *Cynodon dactylon*, *Phragmites* sp.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966) and Kozár et al. (1996).

***Duplachionaspis noaeae* (Hall)**

Chionaspis noaeae Hall, 1925: 13–14.

Iran localities. Ardabil, Chaharmahal-Bakhtiari, Hormozgan, Lorestan.

Host plants. Amaranthaceae: *Noaea mucronata*.

References. Moghaddam and Tavakoli (2010).

***Dynaspidiotus abieticola* (Koroneos)**

Aspidiotus abieticola Koroneos, 1934: 9.

Iran localities. Unknown.

Host plants. Pinaceae.

References. Ben-Dov et al. (2013) and Kaussari (1954).

***Dynaspidiotus abietis* (Schrank)**

Coccus abietis Schrank, 1781: 48.

Iran localities. Mazandaran.

Host plants. Pinaceae: *Pinus* sp.

References. Ben-Dov et al. (2013), Kaussari (1954), Abai (1995) and Moghaddam (2004, 2010).

• *Dynaspidiotus amygdalicola* (Borchsenius)

Diaspidiotus amygdalicola Borchsenius, 1952: 261.

Iran localities. Fars, Ilam, Kerman, Kohgilouyeh & Boyerahmad, Lorestan.

Host plants. Rosaceae: *Prunus lycioides*, *P. reuteri*, *P. scoparia*.

References. Ben-Dov et al. (2013), Borchsenius (1952, 1966), Farahbakhsh (1961), Kaussari (1955, 1964), Komosinska (1969), Kozár (1998), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Dynaspidiotus atlanticus* (Balachowsky)**

Hemiberlesia atlantica Balachowsky, 1928: 125.

Iran localities. Unknown.

Host plants. Araliaceae: *Hedera helix*.

References. Ben-Dov et al. (2013) and Kaussari (1954).

***Dynaspidiotus britannicus* (Newstead)**

Aspidiotus britannicus Newstead, 1898: 93.

Iran localities. Unknown.

Host plants. Aquifoliaceae: *Ilex* sp.; Araliaceae: *Hedera helix*; Asparagaceae: *Ruscus aculeatus*; Buxaceae: *Buxus* sp.; Lauraceae: *Laurus nobilis*.

References. Ben-Dov et al. (2013) and Kaussari (1954).

***Dynaspidiotus ephedrarum* (Lindinger)**

Aspidiotus ephedrarum Lindinger, 1912: 139. *Abgrallaspis ephedrarum* Balachowsky, 1948.

Iran localities. Fars, Hormozgan, Kerman, Semnan, Yazd.

Host plants. Ephedraceae: *Ephedra* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Dynaspidiotus ericarum* (Goux)**

Aspidiotus ericarum Goux, 1937: 345.

Iran localities. Unknown.

Host plants. Anacardiaceae: *Pistacia lentiscus*; Ericaceae: *Arbutus unedo*; Myrtaceae: *Myrtus communis*.

References. Ben-Dov et al. (2013) and Kaussari (1954).

• *Dynaspidiotus medicus* Kaussari

Dynaspidiotus medicus Kaussari, 1956: 102.

Iran localities. Kerman, Sistan & Balouchestan.

Host plants. Cruciferae: *Sameraria*; Rutaceae: *Haplophyllum* sp.; Solanaceae: *Withania somnifera*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1956, 1964), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

Notes. This is the first record of *D. medicus* from the plant family Solanaceae.

• *Dynaspidiotus spartii* Kaussari

Dynaspidiotus spartii Kaussari, 1954: 82.

Iran localities. Gilan, Kermanshah.

Host plants. Fabaceae: *Spartium junceum*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1954, 1957, 1964), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Dynaspidiotus tener* (Bazarov & Shmelev)**

Ephedraspis tenera Bazarov & Shmelev, 1967: 60.

Iran localities. Golestan.

Host plants. Ephedraceae: *Ephedra* sp.

References. Ben-Dov et al. (2013) and Moghaddam (2000a, 2004, 2010).

***Epidiaspis gennadii* (Leonardi)**

Diaspis gennadii Leonardi, 1898: 115.

Iran localities. Ghazvin.

Host plants. Anacardiaceae: *Pistacia vera*.

References. Ben-Dov et al. (2013), Davatchi (1958), Farahbakhsh (1961), Kozár (1998) and Kozár et al. (1996).

***Epidiaspis leperii* (Signoret)**

Diaspis leperii Signoret, 1869b: 437–438.

Iran localities. Tehran.

Host plants. Rosaceae.

References. Ben-Dov et al. (2013), Balachowsky (1954), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996) and Miller and Davidson (2005).

***Epidiaspis salicis* (Bodenheimer)**

Thymaspis salicis Bodenheimer, 1944a: 94–95.

Iran localities. Chaharmahal-Bakhtiari.

Host plants. Salicaceae: *Salix* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944a), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1964), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

***Fiorinia distinctissima* (Newstead)**

Parlatoria distinctissima Newstead, 1896: 133–134. *Fiorinia afchari* Bodenheimer, 1944.

Iran localities. Hormozgan, Kerman, Sistan & Balouchestan.

Host plants. Apocynaceae: *Nerium oleander*, *Periploca aphylla*; Capparaceae: *Capparis decidua*; Solanaceae: *Withania somnifera*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1964), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

Notes. These are the first records of *F. distinctissima* from the plant families Capparaceae and Solanaceae.

***Fiorinia phoenicis* Balachowsky**

Fiorinia phoenicis Balachowsky, 1967: 771–775.

Iran localities. Fars, Hormozgan, Kerman, Sistan & Balouchestan.

Host plants. Arecaceae: *Phoenix dactylifera*.

References. Balachowsky (1967), Ben-Dov et al. (2013), Kozár (1998) and Takagi and Moghaddam (2005).

****Fiorinia proboscidaria* Green**

Fiorinia proboscidaria Green, 1900: 256.

Iran localities. Sistan & Balouchestan.

Host plants. Unknown plant.

Notes. This is the first record of *F. proboscidaria* from Iran, identified by M. Moghaddam.

***Froggattiella penicillata* (Green)**

Odonaspis penicillata Green, 1905: 346.

Iran localities. Gilan.

Host plants. Poaceae: *Bambusa* sp.

References. Ben-Dov (1988), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2010) and Seghatoleslami (1977).

● ***Gonaspidotus kaussarii* (Balachowsky)**

Abgrallaspis kaussarii Balachowsky, 1959: 211.

Iran localities. Semnan, Tehran.

Host plants. Unknown plant.

References. Balachowsky (1959), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaus-sari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

***Hemiberlesia lataniae* (Signoret)**

Aspidiotus lataniae Signoret, 1869: 124.

Iran localities. Gilan, Mazandaran, Sistan & Balouchestan.

Host plants. Buxaceae: *Buxus hyrcana*; Fabaceae: *Inga edulis*; Lauraceae: *Persea americana*.

References. Ben-Dov et al. (2013), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996) and Moghaddam (2004, 2010).

***Hemiberlesia rapax* (Comstock)**

Aspidiotus rapax Comstock, 1881: 307. *Aspidiotus camelliae* Signoret, 1869 (nomen nudum). *Hemiberlesia camelliae* Leonardi, 1897 (nomen nudum).

Iran localities. Gilan, Mazandaran, Sistan & Balouchestan.

Host plants. Celastraceae: *Euonymus japonicus*; Fabaceae: *Robinia* sp.; Moraceae: *Ficus* sp.; Oleaceae: *Olea europea*.

References. Ben-Dov et al. (2013), Davatchi (1946), Farahbakhsh (1961), Kaus-sari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Koroneaspis aegilopos* (Koroneos)**

Lepidosaphes aegilopos Koroneos, 1934: 74–75.

Iran localities. Fars, Kermanshah, Kohgilouyeh & Boyerahmad.

Host plants. Fagaceae: *Quercus* sp.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Far-ahbakhsh (1961), Kaussari (1955), Kozár (1998) and Kozár et al. (1996).

****Koroneaspis lonicerae* Borchsenius**

Koroneaspis lonicerae Borchsenius, 1949a: 343–344.

Iran localities. Chaharmahal-Bakhtiari, Fars, Kerman, Kohgiluyeh & Boyerahmad.

Host plants. Caprifoliaceae: *Lonicera* sp.

Notes. This is the first record of *K. lonicerae* from Iran, identified by M. Moghaddam.

***Kuwanaspis howardi* (Cooley)**

Chionaspis howardi Cooley, 1898: 88–89.

Iran localities. Mazandaran.

Host plants. Poaceae: *Bambusa* sp.

References. Moghaddam (2003, 2004, 2010).

***Lepidosaphes afganensis* Borchsenius**

Lepidosaphes afganensis Borchsenius, 1962: 861.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár et al. (1996).

***Lepidosaphes beckii* (Newman)**

Coccus beckii Newman, 1869: 217–218.

Iran localities. Mazandaran.

Host plants. Buxaceae: *Buxus hyrcana*; Rutaceae: *Citrus sinensis*; Theaceae: *Camellia sinensis*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *L. beckii* from the plant family Buxaceae.

***Lepidosaphes belutchistana* Balachowsky**

Lepidosaphes belutchistanus Balachowsky, 1954: 75–77. *Mytilaspis belutchistanus* Borchsenius, 1963.

Iran localities. Hormozgan, Sistan & Balouchestan, Kerman.

Host plants. Acanthaceae: *Avicennia officinalis*; Arecaceae: *Nannorrhops ritchiana*; Apocynaceae: *Nerium oleander*, *Periploca aphylla*; Fabaceae: *Acacia* sp., *Prosopis spicigera*.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Kaussari (1955, 1964), Farahbakhsh (1961), Kozár (1998), Kozár et al. (1996), Takagi and Moghaddam (2005) and Seghatoleslami (1977).

Notes. These are the first records of *L. belutchistana* from the plant families Acanthaceae and Arecaceae.

***Lepidosaphes conchiformis* (Gmelin)**

Coccus conchiformis Gmelin, 1790: 2221. *Lepidosaphes ficus* Fernald, 1903. *Lepidosaphes minima* Fernald, 1903. *Mytilaspis conchiformis* Signoret, 1870.

Iran localities. Esfahan, Fars, Ghazvin, Golestan, Kerman, Khorasan -e Jonoubi, Sistan & Balouchestan, Tehran.

Host plants. Elaeagnaceae: *Elaeagnus angustifolia*; Juglandaceae: *Juglans regia*; Moraceae: *Ficus carica*; Ulmaceae: *Ulmus campestris*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Lepidosaphes gloverii* (Packard)**

Aspidiotus gloverii Packard, 1869: 527.

Iran localities. Gilan, Mazandaran.

Host plants. Rutaceae: *Citrus* spp.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Lepidosaphes granati* Koroneos**

Lepidosaphes conchiformis granati Koroneos, 1934: 72–73.

Iran localities. Esfahan, Khorasan -e Jonoubi.

Host plants. Elaeagnaceae: *Eleagnus* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998) and Kozár et al. (1996).

***Lepidosaphes janguai* Balachowsky**

Lepidosaphes janguai Balachowsky, 1954: 82–83.

Iran localities. Sistan & Balouchestan.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Kaussari (1964) and Kozár et al. (1996).

***Lepidosaphes juniperi* Lindinger**

Lepidosaphes juniperi Lindinger, 1912: 188. *Mytilococcus juniperi* Bodenheimer, 1943.

Iran localities. Hamadan, Tehran.

Host plants. Cupressaceae: *Juniperus communis*, *Thuja orientalis*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

***Lepidosaphes malicola* Borchsenius**

Lepidosaphes malicola Borchsenius, 1947: 142.

Iran localities. Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Elborz, Esfahan, Fars, Gilan, Hamadan, Kerman, Khorasan -e Razavi, Khorasan -e Shomali, Kohgilouyeh & Boyerahmad, Kordestan, Lorestan, Mazandaran, Tehran.

Host plants. Fabaceae: *Astragalus* sp., *Cercis siliquastrum*; Juglandaceae: *Juglans regia*; Lythraceae: *Punica granatum*; Oleaceae: *Fraxinus excelsior*; Rosaceae: *Cotoneaster vulgaris*, *Prunus armeniaca*, *P. persica*, *Prunus* sp.; Salicaceae: *Populus nigra*; Thymelaeaceae: *Daphne angustifolia*; Ulmaceae: *Ulmus* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. These are the first records of *L. malicola* from the plant families Lythraceae, Thymelaeaceae and Ulmaceae.

***Lepidosaphes newsteadi* (Šulc)**

Mytilaspis newsteadi Šulc, 1895: 8–12.

Iran localities. Kerman.

Host plants. Apocynaceae: *Nerium oleander*.

References. Ben-Dov et al. (2013), Danzig and Pellizzari (1998) and Kozár (1998).

Notes. This is the first record of *L. newsteadi* from the plant family Apocynaceae.

***Lepidosaphes pallida* (Maskell)**

Mytilaspis pallida Maskell, 1895: 46. *Insulaspis maskelli* Borchsenius, 1963.

Iran localities. Gilan, Golestan, Sistan & Balouchestan.

Host plants. Acanthaceae: *Avicennia officinalis*; Apocynaceae: *Nerium* sp.; Cupressaceae: *Juniperus communis*; Pinaceae: *Pinus* sp.; Rosaceae: *Mespilus germanica*; Taxodiaceae: *Cryptomeria* sp.

References. Ben-Dov et al. (2013), Kozár (1998), Kozár et al. (1996), Moghaddam (2010) and Seghatoleslami (1977).

Notes. These are the first records of *L. pallida* from the plant families Acanthaceae, Apocynaceae and Rosaceae.

***Lepidosaphes pallidula* (Williams)**

Insulaspis pallidula Williams, 1969: 114.

Iran localities. Sistan & Balouchestan.

Host plants. Myrtaceae: *Psidium guajava*; Solanaceae: *Solanum melongena*.

References. Takagi and Moghaddam (2005).

Notes. This is the first record of *L. pallidula* from the plant family Solanaceae.

***Lepidosaphes pinnaeformis* (Bouché)**

Aspidiotus pinnaeformis Bouché, 1851: 111.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Archangelskaya (1937) and Ben-Dov et al. (2013).

***Lepidosaphes pistaciae* Archangelskaya**

Lepidosaphes pistaciae Archangelskaya, 1930: 91. *Mytilococcus pistaciae* Bodenheimer, 1943.
Pistaciaspis pistaciae Borchsenius, 1963. *Pistaciapis pistacicola* Borchsenius, 1963.

Iran localities. Azarbaijan -e Garbi, Esfahan, Fars, Ghazvin, Ilam, Kerman, Kermanshah, Khorasan -e Razvi, Kohgiluyeh & Boyerahmad, Kordestan, Lorestan, Sistan & Balouchestan, Yazd.

Host plants. Anacardiaceae: *Pistacia khinjuk*, *P. mutica*, *P. vera*.

References. Archangelskaya (1937), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Lepidosaphes turanica* Archangelskaya**

Lepidosaphes turanica Archangelskaya, 1937: 75. *Mytilaspis turanica* (Archangelskaya, 1937).

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Borchsenius (1966) and Kozár et al. (1996).

***Lepidosaphes ulmi* (Linnaeus)**

Coccus ulmi Linnaeus, 1758: 455.

Iran localities. Ardabil, Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Fars, Gilan, Golestan, Lorestan, Markazi, Mazandaran, Tehran.

Host plants. Aceraceae: *Acer* sp.; Betulaceae: *Alnus glutinosa*, *Corylus avellana*; Fabaceae: *Cercis siliquastrum*, *Spartium junceum*; Juglandaceae: *Juglans regia*; Oleaceae: *Fraxinus excelsior*; Rosaceae: *Crataegus ambigua*, *Mespilus germanica*, *Prunus* sp., *Rosa* sp.; Salicaceae: *Populus nigra*, *Salix* sp.; Ulmaceae: *Ulmus carpinifolia*.

References. Afchar (1937), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Leucaspis lowi* Colvée**

Leucaspis lowi Colvée, 1882: 10–12.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár (1998) and Kozár et al. (1996).

Leucaspis pusilla Löw

Leucaspis pusilla Löw, 1883: 3–5.

Iran localities. Elborz, Fars, Golestan, Mazandaran, Tehran.

Host plants. Pinaceae: *Pinus* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Leucaspis riccae Targioni Tozzetti

Leucaspis Riccae Targioni Tozzetti, 1881: 160.

Iran localities. Kermanshah, Zanjan.

Host plants. Apocynaceae: *Nerium oleander*; Oleaceae: *Olea europea*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár et al. (1996), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Lopholeucaspis japonica (Cockerell)

Leucaspis japonicus Cockerell, 1897: 53.

Iran localities. Gilan, Hormozgan, Mazandaran, Sistan & Balouchestan.

Host plants. Aceraceae: *Acer insigne*; Betulaceae: *Corylus avellana*; Buxaceae: *Buxus hyrcana*; Caprifoliaceae: *Lonicera caprifolium*; Celastraceae: *Euonymus japonicus*; Fabaceae: *Robinia* sp.; Magnoliaceae: *Magnolia grandiflora*; Moraceae: *Ficus bengalensis*, *F. carica*, *F. religiosa*, *Morus alba*; Rosaceae: *Cydonia oblonga*, *Mespilus germanica*, *Rosa* sp.

References. Ben-Dov et al. (2013), Kaussari (1970), Kaussari and Farahbakhsh (1968), Kozár et al. (1996), Miller and Davidson (2005), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *L. japonica* from the plant family Buxaceae.

***Melanaspis inopinata* (Leonardi)**

Aonidiella inopinata Leonardi, 1913: 63.

Iran localities. Azarbaijan -e Sharghi, Bushehr, Fars, Kerman, Kermanshah, Kordestan, Kohgiluyeh & Boyerahmad, Lorestan, Yazd.

Host plants. Aceraceae: *Acer cinerascens*; Brassicaceae: *Anabasis* sp.; Anacardiaceae: *Pistacia khinjuk*, *P. mutica*; Euphorbiaceae: *Ricinus communis*; Fabaceae: *Acacia* sp., *Astragalus* sp.; Fagaceae: *Quercus* sp.; Juglandaceae: *Juglans regia*; Oleaceae: *Fraxinus excelsior*; Rosaceae: *Malus domestica*, *Prunus avium*, *Pyrus* sp.; Salicaceae: *Salix* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. These are the first records of *M. inopinata* from the plant families Brassicaceae, Euphorbiaceae and Fagaceae.

● ***Melanaspis louristanus* Balachowsky & Kaussari**

Melanaspis louristanus Balachowsky & Kaussari, 1953: 28.

Iran localities. Chaharmahal-Bakhtiari, Fars, Ilam, Kermanshah, Kordestan, Khuzestan, Kohgiluyeh & Boyerahmad, Lorestan.

Host plants. Fagaceae: *Quercus* sp.

References. Balachowsky and Kaussari (1953), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1964, 1955), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Mercetaspis bicuspis* (Hall)**

Lepidosaphes bicuspis Hall, 1923: 22–23. *Nilotaspis bicuspis* Balachowsky, 1954.

Iran localities. Kerman, Sistan & Balouchestan.

Host plants. Amaranthaceae: *Suaeda nudiflora*; Sapindaceae: *Stocksia brahuica*; Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996) and Seghatoleslami (1977).

Notes. These are the first records of *M. bicuspis* from the plant families Amaranthaceae and Sapindaceae.

***Mercetaspis calligoni* (Borchsenius)**

Haplaspis calligoni Borchsenius, 1949: 736.

Iran localities. Kerman.

Host plants. Polygonaceae: *Atraphaxis spinosa*, *Calligonum denticulatum*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998) and Kozár et al. (1996).

***Mercetaspis halli* (Green)**

Lepidosaphes (Coccomytilus) halli Green, 1923: 63. *Nilotaspis halli* Ferris, 1941.

Iran localities. Ardabil, Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Esfahan, Fars, Hamadan, Kerman, Kermanshah, Kohgilouyeh & Boyerahmad, Lorestan, Sistan & Balouchestan, Yazd.

Host plants. Anacardiaceae: *Pistacia khinjuk*; Fabaceae: *Astragalus* sp., *Ebenus stellata*; Rosaceae: *Amygdalus communis*, *A. lycioides*, *A. persica*, *A. reuteri*, *A. scoparia*, *Armeniaca vulgaris*, *Prunus amygdalus*, *P. armeniaca*, *P. domestica*, *P. persica*, *P. reuteri*, *P. sorparia*, *P. spinosa*.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946, 1955), Kozár (1998), Kozár et al. (1996), Miller and Davidson (2005), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. This is the first record of *M. halli* from the plant family Anacardiaceae.

***Mercetaspis isis* (Hall)**

Coccomytilus isis Hall, 1923: 21–22. *Nilotaspis isis* Hall, 1923.

Iran localities. Esfahan, Hormozgan, Kerman.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Balachowsky (1954), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Seghatoleslami (1977) and Takagi and Moghaddam (2005).

***Mercetaspis sureyanus* (Bodenheimer)**

Coccomytilus sureyanus Bodenheimer, 1941: 66.

Iran localities. Golestan.

Host plants. Fabaceae: *Astragalus* sp.

References. Moghaddam (2001, 2010)

***Mongrovaspis quadrispinosa* (Green)**

Leucaspis quadrispinosa Green, 1934: 110–111.

Iran localities. Sistan & Balouchestan.

Host plants. Acanthaceae: *Avicennia officinalis*.

References. Takagi and Moghaddam (2005).

***Mycetaspis personata* (Comstock)**

Aspidiotus personatus Comstock, 1883: 66.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Kozár et al. (1996).

***Oceanaspidiotus spinosus* (Comstock)**

Aspidiotus spinous Comstock, 1883: 70.

Iran localities. Sistan & Balouchestan.

Host plants. Solanaceae: *Solanum melongena*.

References. Ben-Dov et al. (2013) and Takagi and Moghaddam (2005).

***Odonaspis panici* Hall**

Odonaspis panici Hall, 1926: 26.

Iran localities. Hormozgan.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Borchsenius (1966), Ben-Dov (1988), Farahbakhsh (1961), Kaussari (1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Odonaspis secreta* (Cockerell)**

Aspidiotus secretus Cockerell, 1896: 20.

Iran localities. Gilan.

Host plants. Poaceae: *Bambusa* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970) and Kozár et al. (1996).

***Parlagena buxi* (Takahashi)**

Gymnaspis buxi Takahashi, 1936: 220–222.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013) and Kozár et al. (1996).

• *Parlagena mckenziei* Balachowsky

Parlagena McKenzei Balachowsky, 1950: 18–20.

Iran localities. Bushehr, Esfahan, Hormozgan, Ilam, Khuzestan, Sistan & Balouchestan.

Host plants. Fabaceae: *Prosopis stephaniana*; Tamaricaceae: *Tamarix* sp.

References. Balachowsky (1950), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1964, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. This is the first record of *P. mckenziei* from the plant family Fabaceae.

• *Parlagena remaudierei* Kaussari

Parlagena Remaudierei Kaussari, 1955a: 234–235.

Iran localities. Esfahan, Kerman, Kermanshah, Sistan & Balouchestan.

Host plants. Convolvulaceae: *Convolvulus* sp.; Lythraceae: *Punica granatum*; Zygophyllaceae: *Zygophyllum eurypeterum*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955a, 1957, 1964, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. These are the first records of *P. remaudierei* from the plant families Convolvulaceae and Lythraceae.

***Parlatoareopsis chinensis* (Marlatt)**

Parlatoria chinensis Marlatt, 1908: 30–32.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Kozár et al. (1996).

***Parlatoareopsis longispina* (Newstead)**

Chionaspis longispina Newstead, 1911: 88–89.

Iran localities. Hormozgan, Ilam, Kerman, Kermanshah, Kordestan.

Host plants. Lythraceae: *Punica granatum*; Moraceae: *Ficus carica*; Polygonaceae: *Calligonum denticulatum*; Rhamnaceae: *Ziziphus spina-christi*; Rosaceae: *Prunus spinosa*, *Rosa* sp.; Tamaricaceae: *Tamarix* sp.; Zygophyllaceae: *Zygophyllum* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. This is the first record of *P. longispina* from the plant family Tamaricaceae.

***Parlatoria asiatica* Borchsenius**

Parlatoria asiatica Borchsenius, 1949b: 341.

Iran localities. Kerman.

Host plants. Ephedraceae: *Ephedra* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Kaussari (1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Parlatoria blanchardi* (Targioni Tozzetti)**

Aonidia Blanchardi Targioni Tozzetti, 1892: 69–82.

Iran localities. Bushehr, Fars, Hormozgan, Ilam, Kerman, Sistan & Balouchestan, Yazd.

Host plants. Areaceae: *Chamaerops humilis*, *Nannorrhops ritchiana*, *Phoenix dactylifera*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Carpenter and Elmer (1978), Farahbakhsh (1961), Kaussari (1946, 1955, 1970), Kozár (1998), Kozár et al. (1996), Miller and Davidson (2005), Moghaddam (2004), Moghaddam and Tavakoli (2010), Seghatoleslami (1977).

***Parlatoria camelliae* Comstock**

Parlatoria pergandii camelliae Comstock, 1883: 114.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár (1998) and Kozár et al. (1996).

***Parlatoria crypta* McKenzie**

Parlatoria crypta McKenzie, 1943: 156. *Parlatoria morrisoni*, McKenzie, 1943.

Iran localities. Bushehr, Fars, Hormozgan, Kerman, Kermanshah, Khuzestan, Sistan & Balouchestan.

Host plants. Anacardiaceae: *Mangifera indica*; Apocynaceae: *Calotropis procera*; *Nerium oleander*; Arecaceae: *Phoenix dactylifera*; Asparagaceae: *Yucca baccata*; Boraginaceae: *Cordia* sp.; Convolvulaceae: *Ipomoea* sp.; Fabaceae: *Acacia* sp., *Albizzia lebbek*, *Glycyrrhiza glabra*, *Indigofera argentea*; Lythraceae: *Lawsonia inermis*; Meliaceae: *Melia azadirachta*; Moraceae: *Ficus bengalensis*; *Morus alba*; Myrtaceae: *Myrtus communis*; Oleaceae: *Fraxinus excelsior*, *Olea europea*; Polygonaceae: *Calligonum comosum*; Rhamnaceae: *Ziziphus spina-christi*; Rosaceae: *Malus domestica*, *Pyrus communis*, *Rosa* sp.; Rutaceae: *Citrus limonia*.

References. Balachowsky (1953), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Matile-Ferrero (1984), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Notes. These are the first records of *P. crypta* from the plant families Asclepiadaceae, Asparagaceae, Boraginaceae, Convolvulaceae, Fabaceae, Lythraceae, Polygonaceae and Rhamnaceae.

***Parlatoria ephedrae* (Lindinger)**

Parlatoarea ephedrae Lindinger, 1911: 129. *Archangelskaia ephedrae* Bodenheimer, 1951.

Iran localities. Esfahan, Golestan, Kerman, Sistan & Balouchestan.

Host plants. Ephedraceae: *Ephedra* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Parlatoria oleae* (Colvée)**

Diaspis oleae Colvée, 1880: 40. *Syngenaspis oleae* MacGillivray, 1921.

Iran localities. Ardebil, Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Elborz, Esfahan, Fars, Gilan, Golestan, Kerman, Kermanshah, Khorasan -e Razvi, Khorasan -e Shomali, Kohgiluyeh & Boyerahmad, Lorestan, Mazandaran, Sistan & Baluchestan, Tehran, Yazd.

Host plants. Anacardiaceae: *Pistacia mutica*, *Rhus coriaria*; Apiaceae: *Heracleum persicum*; Apocynaceae: *Nerium oleander*; Asparagaceae: *Asparagus plumosus*; Berberidaceae: *Berberis vulgaris*; Boraginaceae: *Cordia myxa*; Ebenaceae: *Diospyrus kaki*; Fabaceae: *Astragalus* sp., *Gleditsia* sp., *Robinia pseudo-acacia*; Fagaceae: *Quercus* sp.; Juglandaceae: *Juglans regia*; Lythraceae: *Punica granatum*; Malvaceae: *Hibiscus syriacus*; Oleaceae: *Fraxinus excelsior*, *Jasminum officinalis*, *Olea europea*; Rhamnaceae: *Rhamnus* sp.; Rosaceae: *Cotoneaster vulgaris*, *Crataegus ambigua*, *Cydonia vulgaris*, *Malus domestica*, *Mespilus germanica*, *Persica vulgaris*, *Prunus amygdalus*, *P. armenica*, *P. avium*, *P. caspica*, *Pyrus communis*, *P. persica*, *Rosa damascena*; Rutaceae: *Citrus* sp.; Salicaceae: *Populus tremula*; Ulmaceae: *Ulmus campestris*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Davatchi (1946), Farahbakhsh (1961), Kaussari (1946, 1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Notes. These are the first records of *P. oleae* from the plant families Apiaceae and Fagaceae.

***Parlatoria pergandii* Comstock**

Parlatoria pergandii Comstock, 1881: 327–328. *Syngenaspis pergandii* MacGillivray, 1921.

Iran localities. Gilan, Mazandaran.

Host plants. Rosaceae: *Prunus laurocerasus*; Rutaceae: *Citrus bigaradia*, *C. sinensis*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1946, 1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Parlatoria proteus* (Curtis)**

Aspidiotus Proteus Curtis, 1843: 676.

Iran localities. Gilan, Mazandaran.

Host plants. Theaceae: *Camellia* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970) and Kozár et al. (1996).

***Parlatoria theae* Cockerell**

Parlatoria theae Cockerell, 1896: 21.

Iran localities. Gilan, Mazandaran.

Host plants. Rosaceae: *Prunus* sp., *Rosa* sp.; Theaceae: *Camellia sinensis*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Parlatoria ziziphi* (Lucas)**

Coccus ziziphi Lucas, 1853: xxix.

Iran localities. Gilan, Golestan, Mazandaran.

Host plants. Rutaceae: *Citrus* sp.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946, 1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Pinnaspis aspidistrae* (Signoret)**

Chionaspis aspidistrae Signoret, 1869b: 443.

Iran localities. Gilan, Sistan & Balouchestan.

Host plants. Arecaceae: *Chamaerops humilis*; Rhamnaceae: *Ziziphus spina-christi*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1957), Seghatoleslami (1977), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Pinnaspis strachani* (Cooley)**

Hemichionaspis minor strachani Cooley, 1899: 54–55.

Iran localities. Sistan & Balouchestan.

Host plants. Fabaceae: *Acacia* sp.; Malvaceae: *Gossypium arboreum*; Rhamnaceae: *Ziziphus spina-christi*.

References. Moghaddam (2000).

***Prodiaspis tamaricicola* (Malenotti)**

Adiscodiaspis tamaricicola Malenotti, 1916: 313–315. *Adiscodiaspis tamaricicola* Malenotti, 1916. *Rungaspidiotus tamaricicola* Balachowsky, 1953.

Iran localities. Azarbaijan -e Garbi, Bushehr, Esfahan, Fars, Khouzestan, Khorasan -e Razavi, Khorasan -e Shomali, Sistan & Balouchestan, Yazd.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1970), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Pseudaonidia duplex* (Cockerell)**

Aspidiotus duplex Cockerell, 1896: 20.

Iran localities. Sistan & Balouchestan.

Host plants. Anacardiaceae: *Mangifera indica*.

References. Moghaddam (2002).

***Pseudaulacaspis pentagona* (Targioni Tozzetti)**

Diaspis pentagona Targioni Tozzetti, 1886: 1.

Iran localities. Ardabil, Gilan, Golestan, Mazandaran.

Host plants. Actinidiaceae: *Actinida chinensis*; Juglandaceae: *Juglans regia*; Moraceae: *Morus alba*; Pinaceae: *Pinus* sp.; Rosaceae: *Prunus persica*; Rutaceae: *Citrus bigaradia*; Salicaceae: *Salix* sp.

References. Ben-Dov et al. (2013), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

Notes. This is the first record of *P. pentagona* from the plant family Pinaceae.

***Pseudotargionia glandulosa* (Newstead)**

Aonidia glandulosa Newstead, 1911: 103.

Iran localities. Sistan & Balouchestan.

Host plants. Fabaceae: *Acacia farnesiana*.

References. Ben-Dov et al. (2013), Moghaddam (2001, 2004), Kaussari (1970) and Kozár (1998).

● ***Pseudotargionia orientalis* Balachowsky & Kaussari**

Pseudotargionia orientalis Balachowsky & Kaussari, 1951: 3.

Iran localities. Sistan & Balouchestan.

Host plants. Bignoniaceae: *Catalpa speciosa*; Fabaceae: *Acacia farnesiana*; Sapindaceae: *Stocksia brabuica*.

References. Balachowsky and Kaussari (1951), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955, 1964), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Notes. These are the first records of *P. orientalis* from the plant families Bignoniaceae and Fabaceae.

***Rhizaspidotus canariensis* (Lindinger)**

Aspidiotus canariensis Lindinger, 1911a: 12.

Iran localities. Golestan.

Host plants. Asteraceae: *Achillea* sp.

References. Ben-Dov et al. (2013), Kozár (1998), Kozár et al. (1996) and Moghaddam (2004, 2010).

***Rhizaspidotus secretus* (Borchsenius)**

Arundaspis secretus Borchsenius, 1949b: 738.

Iran localities. Unknown

Host plants. Poaceae.

References. Kozár et al. (1996).

● ***Rungaspis avicenniae* Takagi & Moghaddam**

Rungaspis avicenniae Takagi & Moghaddam, 2005: 53.

Iran localities. Hormozgan, Sistan & Balouchestan.

Host plants. Acanthaceae: *Avicennia officinalis*.

References. Ben-Dov et al. (2013) and Takagi and Moghaddam (2005).

***Rungaspis capparidis* (Bodenheimer)**

Diaspis capparidis Bodenheimer, 1929: 108. *Rungaspis trabuti* Balachowsky, 1949.

Iran localities. Hormozgan.

Host plants. Acanthaceae: *Avicennia officinalis*.

References. Balachowsky (1958), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1955), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Seghatoleslami (1977) and Takagi and Moghaddam (2005).

***Rungaspis macrolobis* Kaussari**

Rungaspis macrolobis Kaussari, 1958: 229.

Iran localities. Esfahan, Hormozgan, Kerman, Sistan & Balouchestan.

Host plants. Amaranthaceae: *Anabasis aphylla*; Asclepiadaceae: *Calotropis procera*; Fabaceae: *Robinia* sp.

References. Ben-Dov (1980), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1958, 1964), Kaussari and Farahbakhsh (1968), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Note. These are the first records of *R. macrolobis* from the plant families Asclepiadaceae and Fabaceae.

***Salicicola archangelskyae* (Lindinger)**

Leucaspis archangelskyae Lindinger, 1929: 113. *Suturaspis archangelskyae* Borchsenius, 1937.

Iran localities. Azarbaijan -e Sharghi, Bushehr, Elborz, Esfahan, Fars, Gilan, Kerman, Kermanshah, Kohgiluyeh & Boyerahmad, Lorestan, Tehran.

Host plants. Aceraceae: *Acer cinerascens*; Oleaceae: *Fraxinus excelsior*, *Olea europea*; Rosaceae: *Prunus domestica*, *P. reuteri*, *Pyrus communis*; Thymelaeaceae: *Daphne angustifolia*; Ulmaceae: *Celtis australis*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1946, 1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977) and Takagi and Moghaddam (2005).

Note. These are the first records of *S. archangelskyae* from the plant families Aceraceae and Ulmaceae.

***Salicicola davatchii* Balachowsky & Kaussari**

Salicicola davatchii Balachowsky & Kaussari, 1951: 6–7. *Suturaspis davatchi* Borchsenius, 1966. (misspelling in Ben-Dov et al. 2013).

Iran localities. Azarbaijan -e Garbi, Fars, Hormozgan, Ilam, Kerman, Kermanshah, Kohgilouyeh & Boyerahmad, Lorestan, Sistan & Balouchestan.

Hosts. Anacardiaceae: *Pistacia khinjuk*; Moraceae: *Ficus carica*, *Pistacia mutica*; Rosaceae: *Prunus lycioides*.

References. Balachowsky and Kaussari (1951), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1964, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

Note. This is the first record of *S. davatchii* from the plant family Rosaceae.

***Salicicola kermanensis* (Lindinger)**

Leucaspis (Salicicola) kermanensis Lindinger, 1905: 253–254. *Leucaspis kermanensis* Lindinger, 1905.

Iran localities. Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Elborz, Esfahan, Fars, Golestan, Kerman, Khorasan -e Shomali, Khouzestan, Kohgilouyeh & Boyerahmad, Kordestan, Lorestan, Markazi, Sistan & Balouchestan, Yazd.

Host plants. Salicaceae: *Populus alba*, *P. euphratica*, *P. nigra*, *Salix babylonica*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kaussari (1946, 1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010), Moghaddam and Tavakoli (2010) and Seghatoleslami (1977).

***Salicicola pistaciae* (Lindinger)**

Leucaspis (Euleucaspis) pistaciae Lindinger, 1906: 40.

Iran localities. Kerman, Kermanshah.

Host plants. Anacardiaceae: *Pistacia mutica*.

References. Afchar (1937), Ben-Dov et al. (2013), Bodenheimer (1944), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Targionia anabasisidis* (Borchsenius)**

Pseudomelanaspis minima Borchsenius, 1952: 262. *Targaspidiotus anabsidis* Borchsenius, 1952.

Iran localities. Hormozgan.

Host plants. Amaranthaceae: *Anabasis aphylla*.

References. Ben-Dov et al. (2013), Borchsenius (1952), Danzig (1993), Farahbakhsh (1961), Kaussari (1955), Kozár (1998) and Kozár et al. (1996).

***Targionia arthrophyti* (Archangelskaya)**

Aspidiotus (Aonidiella) arthrophyti Archangelskaya, 1931: 83. *Schizotargionia arthrophyti* Balachowsky.

Iran localities. Yazd.

Host plants. Amaranthaceae: *Haloxylon* sp.

References. Bazarov and Shmelev (1971), Ben-Dov et al. (2013), Borchsenius (1966), Kozár (1998), Kozár et al. (1996) and Moghaddam (2004).

● ***Targionia balachowskyi* (Kaussari)**

Schizotargionia balachowskyi Kaussari, 1952: 182.

Iran localities. Esfahan, Sistan & Balouchestan.

Host plants. Moraceae: *Haloxylon* sp.; Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1952, 1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Note. This is the first record of *T. balachowskyi* from the plant family Amaranthaceae.

***Targionia haloxyloni* Hall**

Targionia haloxyloni Hall, 1926: 27.

Iran localities. Lorestan.

Host plants. Fabaceae: *Astragalus* sp.; Thymelaeaceae: *Daphne* sp.

References. Ben-Dov et al. (2013), Kaussari (1970), Kozár (1998), Kozár et al. (1996) and Moghaddam and Tavakoli (2010).

***Targionia nigra* Signoret**

Targionia nigra Signoret, 1870: 106.

Iran localities. Hormozgan, Sistan & Balouchestan.

Host plants. Amaranthaceae: *Anabasis* sp.; Resedaceae: *Ochradenus rostratus*, *O. socotrnus*.

References. Balachowsky (1951), Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

***Targionia porifera* (Borchsenius)**

Rhizaspidiotus porifera Borchsenius, 1949a: 350. *Fisanotargionia quadrilobata* Kaussari & Balachowsky, 1953.

Iran localities. Esfahan, Fars, Hormozgan, Kerman, Yazd.

Host plants. Amaranthaceae: *Anabasis* sp., *Seidlitzia schweinfurthii*; Asteraceae: *Artemisia* sp.; Zygophyllaceae: *Zygophyllum eurypeterum*.

References. Ben-Dov et al. (2013), Borchsenius (1966), Farahbakhsh (1961), Kaussari and Balachowsky (1953), Kaussari (1957, 1964, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004) and Seghatoleslami (1977).

Note. These are the first records of *T. porifera* from the plant families Amaranthaceae and Asteraceae.

***Targionia vitis* (Signoret)**

Aspidiotus vitis Signoret, 1876: lii.

Iran localities. Gilan, Golestan.

Host plants. Fagaceae: *Quercus* sp.

References. Ben-Dov et al. (2013), Danzig (1993), Farahbakhsh (1961), Kaussari (1955, 1970), Kozár (1998), Kozár et al. (1996), Moghaddam (2004, 2010) and Seghatoleslami (1977).

***Torosapis cedricola* (Balachowsky & Alkan)**

Acanthomytilus cedricola Balachowsky & Alkan, 1956: 320.

Iran localities. Gilan, Kerman.

Host plants. Cupressaceae: *Cupressus* sp.

References. Moghaddam (2004, 2010).

● ***Torosapis farsianus* (Balachowsky & Kaussari)**

Acanthomytilus farsianus Balachowsky & Kaussari, 1955: 238.

Iran localities. Fars.

Host plants. Cupressaceae: *Cupressus* sp.

References. Balachowsky and Alkan (1956), Balachowsky and Kaussari (1955), Ben-Dov et al. (2013), Borchsenius (1966), Danzig and Pellizzari (1998), Farahbakhsh (1961), Kaussari (1964), Kozár (1998), Kozár et al. (1996), Kozár and Walter (1985), Moghaddam (2004, 2010), Takagi (1970) and Ülgentürk and Kozár (2011).

***Unaspis euonymi* (Comstock)**

Chionaspis euonymi Comstock, 1881: 313–314.

Iran localities. Gilan.

Host plants. Celastraceae: *Euonymus japonicus*.

References. Balachowsky (1954), Ben-Dov et al. (2013), Borchsenius (1966), Kozár et al. (1996) and Seghatoleslami (1977).

Family ERIOCOCCIDAE

***Acanthococcus araucariae* (Maskell)**

Eriococcus araucariae Maskell, 1879: 218.

Iran localities. Unknown.

Host plants. Araucariaceae: *Araucaria* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961) and Kozár et al. (1996).

***Cryptococcus fagisuga* Lindinger**

Kermes fagi; Lindinger, 1936: 444.

Iran localities. Gilan, Mazandaran.

Host plants. Fagaceae: *Fagus orientalis*.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2009, 2010).

•*Eriococcus abaii* (Danzig)

Acanthococcus abaii Danzig, 1990: 373–376.

Iran localities. Kerman, Sistan & Balouchestan.

Host plants. Amaranthaceae: *Haloxylon aphylla*.

References. Ben-Dov et al. (2013), Kozár et al. (1996), Miller and Gimpel (2000), Moghaddam (2009), Moghaddam and Tavakoli (2010) and Tang and Hao (1995).

****Eriococcus cingulatus* Kiritchenko**

Eriococcus cingulatus Kiritchenko, 1940: 131–133.

Iran localities. Azarbaijan -e Sharghi.

Host plants. Unknown Plant.

Note. This is the first record of *E. cingulatus* from Iran, identified by F. Kozár.

***Eriococcus costatus* (Danzig)**

Acanthococcus costatus Danzig, 1975: 43.

Iran localities. Kermanshah.

Host plants. Ulmaceae: *Ulmus* sp.

References. Ben-Dov et al. (2013) and Torabi et al. (2010).

***Eriococcus isacanthus* (Danzig)**

Acanthococcus isacanthus Danzig, 1975: 45.

Iran localities. Kermanshah.

Host plants. Ulmaceae: *Ulmus* sp.

References. Ben-Dov et al. (2013) and Torabi et al. (2010).

***Eriococcus kondarensis* (Borchsenius)**

Rhizococcus kondarensis Borchsenius, 1949: 353–354.

Iran localities. Golestan, Khorasan -e Shomali.

Host plants. Poaceae.

References. Moghaddam (2001, 2009, 2010)

**Eriococcus pamiricus* (Bazarov)

Acanthococcus pamiricus Bazarov, 1968: 73.

Iran localities. Sistan & Balouchestan.

Host plants. Unknown plant.

Note. This is the first record of *E. pamiricus* in Iran, identified by M. Moghaddam.

**Eriococcus reynei* Schmutterer

Eriococcus reynei Schmutterer, 1952: 414–417.

Iran localities. Ghazvin.

Host plants. Lamiaceae: *Thymus vulgaris*.

Notes. This is the first record of *E. reynei* in Iran, identified by F. Kozár.

**Eriococcus sanguinairensis* Goux

Eriococcus sanguinairensis Goux, 1993: 68–69.

Iran localities. Ardabil.

Host plants. Unknown plant.

Note. This is the first record of *E. sanguinairensis* in Iran, identified by F. Kozár.

**Eriococcus saxidesertus* (Borchsenius)

Acanthococcus saxidesertus Borchsenius, 1949: 343.

Iran localities. Ardabil.

Host plants. Unknown plant.

Note. This is the first record of *E. saxidesertus* in Iran, identified by F. Kozár.

Eriococcus spurius (Modeer)

Coccus spurius Modeer, 1778: 43. *Gossyparia spuria* Cockerell, 1899.

Iran localities. Esfahan, Fars, Golestan, Hamadan, Kerman, Markazi.

Host plants. Ulmaceae: *Ulmus carpenifolia*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Hoy (1963), Kaussari (1946, 1957), Kozár (1998), Kozár et al. (1996), Moghaddam (2009, 2010) and Moghaddam and Tavakoli (2010).

***Neocanthococcus tamaricicola* Borchsenius**

Neocanthococcus tamaricicola Borchsenius, 1948: 502–503.

Iran localities. Khuzestan.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Moghaddam (2009).

***Pseudohermes fraxini* (Kaltenbach)**

Chermes fraxini Kaltenbach, 1860: 259. *Fonscolombea fraxini* Cockerell, 1899.

Iran localities. Tehran.

Host plants. Oleaceae: *Fraxinus excelsior*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Hoy (1963) and Kozár et al. (1996).

Family KERMESIDAE

***Kermes quercus* (Linnaeus)**

Coccus quercus Linnaeus, 1758: 455. *Kermococcus quercus* Henriksen, 1921: 308.

Iran localities. Ilam, Kermanshah.

Host plants. Fagaceae: *Quercus* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kozár et al. (1996), Moghaddam (2009) and Moghaddam and Tavakoli (2010).

***Nidularia balachowskii* Bodenheimer**

Nidularia balachowskii Bodenheimer, 1941: 78–80.

Iran localities. Kermanshah, Lorestan.

Host plants. Fagaceae: *Quercus* sp.

References. Ben-Dov et al. (2013) and Bodenheimer (1941, 1944).

Family MARGARODIDAE

● ***Porphyrophora chelodonta* Vahedi**

Porphyrophora chelodonta Vahedi in Vahedi and Hodgson 2007: 40.

Iran localities. Kermanshah.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013) and Vahedi and Hodgson (2007).

***Porphyrophora cynodontis* (Archangelskaya)**

Margarodes cynodontis Archangelskaya, 1935: 15.

Iran localities. Azarbaijan -e Sharghi.

Host plants. Poaceae: *Cynodon dactylon*.

References. Ben-Dov et al. (2013), Kozár et al. (1996), Moghaddam (2009), Torabi et al. (2010), Vahedi (2002) and Vahedi and Hodgson (2007).

***Porphyrophora hamelii* Brandt**

Porphyrophora hamelii Brandt in Brandt and Ratzeburg 1833: 356.

Iran localities. Ardabil, Hamadan.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Kaussari (1957), Kozár et al. (1996), Vahedi (2002) and Vahedi and Hodgson (2007).

● ***Porphyrophora jashenkoi* Vahedi**

Porphyrophora jashenkoi Vahedi in Vahedi and Hodgson 2007: 68.

Iran localities. Kermanshah.

Host plants. Poaceae: *Triticum vulgare*.

References. Ben-Dov et al. (2013) and Vahedi and Hodgson (2007).

***Porphyrophora medicaginis* Jashenko**

Porphyrophora medicaginis Jashenko, 1994: 22.

Iran localities. Azarbaijan -e Sharghi, Kerman.

Host plants. Fabaceae: *Medicago sativa*.

References. Ben-Dov et al. (2013), Moghaddam (2009) and Vahedi and Hodgson (2007).

***Porphyrophora tritici* (Bodenheimer)**

Margarodes tritici Bodenheimer, 1941: 81.

Iran localities. Ardabil, Hamadan, Kermanshah, Kordestan, Zanjan.

Host plants. Poaceae: *Triticum aestivum*.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kozár et al. (1996), Moghaddam (2009), Moghaddam and Tavakoli (2010), Safar Alizadeh and Bahador (1987), Torabi et al. (2010), Vahedi (2001), Vahedi and Gholami Mahfar (2010) and Vahedi and Hodgson (2007).

****Porphyrophora victoriae* Jashenko**

Porphyrophora victoriae Jashenko, 1994: 36.

Iran localities. Markazi.

Host plants. Brassicaceae: *Cardaria draba*.

Note. This the first record of *P. victoriae* from Iran, identified by R. Jashenko.

Family MONOPHLEBIDAE***Drosicha turkestanica* Archangelskaya**

Drosicha turkestanica Archangelskaya, 1931: 69.

Iran localities. Khorasan -e Razvi.

Host plants. Oleaceae: *Fraxinus* sp.

References. Moghaddam (2009).

***Gueriniella serratulae* (Fabricius)**

Coccus serratulae Fabricius, 1775: 744.

Iran localities. Kermanshah, Lorestan.

Host plants. Unknown plant.

References. Moghaddam and Tavakoli (2010).

***Icerya purchasi* Maskell**

Icerya purchasi Maskell, 1879: 221.

Iran localities. Fars, Mazandaran, Tehran.

Host plants. Aceraceae: *Acer* sp.; Fabaceae: *Glycine max*; Rutaceae: *Citrus* sp.; Thymelaeaceae: *Daphne odora*.

References. Afchar (1937), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1946, 1957), Kozár et al. (1996) and Moghaddam (2009).

***Pseudaspidopectus gramineus* Jashenko & Danzig**

Pseudaspidopectus gramineus Jashenko & Danzig, 1992: 89.

Iran localities. Unknown.

Host plants. Poaceae.

References. Kozár et al. (1996).

***Pseudaspidopectus hyphaeniacus* (Hall)**

Aspidoproctus hyphaeniacus Hall, 1925: 1.

Iran localities. Sistan & Balouchestan.

Host plants. Arecaceae: *Phoenix dactylifera*.

References. Moghaddam (2009).

Family ORTHEZIIDAE***Orthezia urticae* (Linnaeus)**

Aphis urticae Linnaeus, 1758: 453.

Iran localities. Ardebil, Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Chaharmahal-Bakhtiari, Esfahan, Fars, Golestan, Hamadan, Ilam, Kerman, Kermanshah, Khorasan -e Jonoubi, Khorasan -e Shomali, Kohgilouyeh & Boyerahmad, Kordestan, Lorestan, Sistan & Balouchestan, Zanjan.

Host plants. Apiaceae: *Eryngium bungei*; Asteraceae: *Artemisia* sp., *Gundelia* sp., *Echinops ritro*, *E. persicae*; Fabaceae: *Astragalus* sp.; Thymelaeaceae: *Daphne angustifolia*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Moghaddam (2009) and Moghaddam and Tavakoli (2010).

Family PHOENICOCOCCIDAE***Phoenicococcus marlatti* Cockerell**

Phoenicococcus marlatti Cockerell, 1899: 262.

Iran localities. Kerman, Kermanshah, Hormozgan, Sistan & Balouchestan, Yazd.

Host plants. Arecaceae: *Phoenix dactylifera*.

References. Afchar (1937), Ben-Dov et al. (2013), Farahbakhsh (1961), Kaussari (1946), Moghaddam (2004) and Seghatoleslami (1977).

Family PSEUDOCOCCIDAE***Adelosoma phragmitidis* Borchsenius**

Adelosoma phragmitidis Borchsenius, 1948a: 584.

Iran localities. Unknown.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2013).

***Antonina crawi* Cockerell**

Antonina crawi Cockerell, 1900: 70.

Iran localities. Gilan.

Host plants. Poaceae: *Bambusa* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kozár et al. (1996) and Moghaddam (2013).

Antonina graminis (Maskell)

Sphaerococcus graminis Maskell, 1897: 244.

Iran localities. Bushehr, Khouzestan.

Host plants. Poaceae: *Poa* sp., *Saccharum officinarum*.

References. Ben-Dov (1994), Ben-Dov et al. (2013), Hendricks and Kosztarab M. (1999), Kozár et al. (1996), Moghaddam (2006, 2009, 2013) and Williams (1970).

Brevennia rehi (Lindinger)

Ripersia rehi Lindinger, 1943: 152.

Iran localities. Khouzestan.

Host plants. Poaceae: *Echinochloa crus-galli*, *Oryza sativa*.

References. Asadeh and Mosaddegh (1991), Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2006, 2009, 2013).

Ceroputo pilosellae Šulc

Ceroputo pilosellae Šulc, 1898: 2. *Phenacoccus euphorbiaefolius* Bodenheimer, 1943.

Iran localities. Azarbaijan -e Garbi, Hamadan, Ilam, Kermanshah.

Host plants. Euphorbiaceae: *Euphorbia* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Kaussari (1957), Kozár et al. (1996) and Moghaddam (2009, 2013).

• *Chorizococcus viticola* Kaydan & Kozár

Chorizococcus viticola Kaydan & Kozár in Fallahzadeh et al. 2010: 158.

Iran localities. Fars.

Host plants. Vitaceae: *Vitis vinifera*.

References. Ben-Dov et al. (2013), Fallahzadeh et al. (2010) and Moghaddam (2013).

• *Coccidobystrix burumandi* Moghaddam

Coccidobystrix burumandi Moghaddam in Moghaddam and Alikhani 2009: 175.

Iran localities. Markazi.

Host plants. Euphorbiaceae: *Euphorbia* sp.

References. Ben-Dov et al. (2013), Moghaddam and Alikhani (2009) and Moghaddam (2013).

***Dysmicoccus boninsis* (Kuwana)**

Dactylopius (Pseudococcus) boninsis Kuwana, 1909: 161.

Iran localities. Khuzestan.

Host plants. Asteraceae: *Lactuca* sp.

References. Asadeh and Mosaddegh (1991), Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2006, 2009, 2013).

Note. This is the first record of *D. boninsis* from the plant family Asteraceae.

***Dysmicoccus brevipes* (Cockerell)**

Dactylopius brevipes Cockerell, 1893: 267.

Iran localities. Sistan & Balouchestan.

Host plants. Fabaceae: *Medicago sativa*.

References. Ben-Dov et al. (2013) and Moghaddam (1999, 2004a, 2006, 2009, 2013).

***Eurycoccus tamariscus* Williams**

Eurycoccus tamariscus Williams, 1984: 538.

Iran localities. Sistan & Balouchestan.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Moghaddam (2009, 2013) and Williams and Moghaddam (2007).

• *Exallomochlus balouchestanensis* Moghaddam

Exallomochlus balouchestanensis Moghaddam, 2013: 25.

Iran localities. Sistan & Balouchestan.

Host plants. Anacardiaceae: *Mangifera indica*.

References. Moghaddam (2013).

***Ferrisia virgata* (Cockerell)**

Dactylopius virgatus Cockerell, 1893: 178.

Iran localities. Sistan & Balouchestan.

Host plants. Boraginaceae: *Cordia myxa*; Moraceae: *Ficus carica*, *F. religiosa*; Myrtaceae: *Myrtus communis*, *Psidium guajava*.

References. Ben-Dov et al. (2013) and Moghaddam (2004a, 2006, 2009, 2013).

***Formicococcus robustus* (Ezzat & McConnell)**

Planococcoides robustus Ezzat & McConnell, 1956: 59.

Iran localities. Hormozgan.

Host plants. Fabaceae: *Prosopis spicigera*.

References. Ben-Dov et al. (2013) and Moghaddam (2004a, 2006, 2009, 2013).

***Kiritschenkella sacchari* (Green)**

Ripersia sacchari Green, 1900a: 37.

Iran localities. Khouzestan.

Host plants. Poaceae: *Saccharum officinarum*.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2009, 2013).

***Maconellicoccus hirsutus* (Green)**

Phenacoccus hirsutus Green, 1908: 25.

Iran localities. Fars, Hormozgan, Sistan & Balouchestan.

Host plants. Anacardiaceae: *Mangifera indica*; Arecaceae: *Phoenix dactylifera*; Combretaceae: *Terminalia catappa*; Convolvulaceae: *Ipomoea* sp.; Fabaceae: *Acacia arabica*, *Albizzia* sp., *Prosopis* sp., *P. spicigera*; Lythraceae: *Lawsonia inermis*; Malvaceae: *Hibiscus rosa-sinensis*, *H. syriacus*; Moraceae: *Ficus riligiosa*, *Morus alba*; Myrtaceae:

Psidium guajava, *Syzygium aromaticum*; Rhamnaceae: *Ziziphus spina-christi*; Rutaceae: *Citrus sinensis*; Salicaceae: *Salix* sp.; Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Fallahzadeh et al. (2007) and Moghaddam (2006, 2009, 2013).

Note. This is the first record of *M. hirsutus* from the plant family Tamaricaceae.

***Nipaecoccus filamentosus* (Cockerell)**

Dactylopius filamentosus Cockerell, 1893a: 254.

Iran localities. Ghazvin.

Host plants. Moraceae: *Ficus* sp.

References. Kaussari (1957) and Kozár et al. (1996).

***Nipaecoccus viridis* (Newstead)**

Dactylopius viridis Newstead, 1894: 5.

Iran localities. Bushehr, Fars, Hormozgan, Khuzestan, Kerman, Sistan & Balouchestan.

Host plants. Acanthaceae: *Avicennia officinalis*; Apocynaceae: *Nerium oleander*; Fabaceae: *Prosopis spicigera*; Moraceae: *Morus alba*; Rhamnaceae: *Ziziphus spina-christi*; Rutaceae: *Citrus bigaradia*, *C. sinensis*; Tamaricaceae: *Tamarix* sp.; Ulmaceae: *Ulmus* sp.

References. Asadeh and Mosaddegh (1991), Ben-Dov (1994), Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2006, 2009, 2013).

***Paracoccus burnerae* (Brain)**

Pseudococcus burnerae Brain, 1915: 111.

Iran localities. Sistan & Balouchestan.

Host plants. Acanthaceae: *Avecennia officinalis*.

References. Moghaddam (2013).

***Peliococcopsis priesneri* (Laing)**

Phenacoccus priesneri Laing, 1936: 80.

Iran localities. Fars.

Host plants. Poaceae: *Cynodon dactylon*.

References. Ben-Dov et al. (2013) and Moghaddam (2006, 2009, 2013).

● ***Peliococcus ilamicus* Moghaddam**

Peliococcus ilamicus Moghaddam, 2013: 39.

Iran localities. Ilam.

Host plants. Fabaceae: *Prosopis stephaniana*.

References. Moghaddam (2013).

● ***Peliococcus kimmericus* (Kiritshenko)**

Phenacoccus kimmericus Kiritchenko, 1940: 189.

Iran localities. Fars, Khuzestan.

Host plants. Amaranthaceae: *Noaea* sp.; Fabaceae: *Prosopis stephaniana*.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2006, 2009, 2013).

Note. This is the first record of *P. kimmericus* from the plant family Amaranthaceae.

***Peliococcus talhouki* Matile-Ferrero**

Peliococcus talhouki Matile-Ferrero, 1984: 225.

Iran localities. Khuzestan, Yazd.

Host plants. Fabaceae: *Prosopis farcata*; Moraceae: *Morus alba*.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2009, 2013).

***Peliococcus turanicus* (Kiritshenko)**

Phenacoccus turanicus Kiritshenko, 1932: 137.

Iran localities. Tehran.

Host plants. Brassicaceae: *Rhaphanus sativus*.

References. Moghaddam (2002, 2009).

***Phenacoccus aceris* (Signoret)**

Pseudococcus aesculi Signoret, 1875: 329.

Iran localities. Kermanshah, Tehran.

Host plants. Asteraceae: *Echinops ritro*; Moraceae: *Morus alba*; Rosaceae: *Crataegus azarollus*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kozár et al. (1996), Moghaddam (2009, 2010, 2013) and Moghaddam and Tavakoli (2010).

***Phenacoccus arthrophyti* Archangelskaya**

Phenacoccus arthrophyti Archangelskaya, 1930: 78.

Iran localities. Yazd.

Host plants. Amaranthaceae: *Haloxylon* sp.

References. Ben-Dov et al. (2013) and Moghaddam (2003, 2009, 2010, 2013).

● *Phenacoccus betae* Moghaddam

Phenacoccus betae Moghaddam, 2010a: 65–67.

Iran localities. Kermanshah, Markazi.

Host plants. Amaranthaceae: *Amaranthus blitoides*, *Beta vulgaris*.

References. Ben-Dov et al. (2013) and Moghaddam (2010a, 2013).

***Phenacoccus hordei* (Lindeman)**

Westwoodia hordei Lindeman, 1886: 367.

Iran localities. Tehran.

Host plants. Poaceae.

References. Moghaddam (2013).

● *Phenacoccus karkasicus* Moghaddam

Phenacoccus karkasicus Moghaddam, 2013: 52.

Iran localities. Esfahan.

Host plants. Berberidaceae: *Berberis vulgaris*.

References. Moghaddam (2013).

● ***Phenacoccus iranica* Moghaddam**

Phenacoccus iranica Moghaddam, 2013: 54.

Iran localities. Kerman.

Host plants. Aceraceae: *Acer cinerascens*.

References. Moghaddam (2013).

***Phenacoccus perillustris* Borchsenius**

Phenacoccus perillustris Borchsenius, 1949: 215.

Iran localities. Esfahan.

Host plants. Berberidaceae: *Berberis vulgaris*.

References. Ben-Dov et al. (2013) and Moghaddam (2010, 2013).

***Phenacoccus pumilus* Kiritchenko**

Phenacoccus pumilus Kiritchenko, 1931: 314.

Iran localities. Bushehr, Markazi, Sistan & Balouchestan, Yazd.

Host plants. Amaranthaceae: *Halocharis sulphurea*; Asteraceae: *Centaurea virgata*; Brassicaceae: *Descuriana sophia*, *Lepidium latifolium*; Fabaceae: *Alhagi cameorum*; Geraniaceae: *Erodium neuradifolium*; Lamiaceae: *Salvia bracteata*.

References. Moghaddam (2013).

● ***Phenacoccus salviacus* Moghaddam**

Phenacoccus salviacus Moghaddam in Moghaddam and Alikhani 2010: 14.

Iran localities. Markazi.

Host plants. Lamiaceae: *Salvia bracteata*.

References. Ben-Dov et al. (2013), Moghaddam (2010, 2013) and (Moghaddam and Alikhani (2010).

● *Phenacoccus sherbinovskyi* Bodenheimer

Phenacoccus sherbinovskyi Bodenheimer, 1943: 32.

Iran localities. Sistan & Balouchestan.

Host plants. Lamiaceae: *Rydingia persica*.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Kaussari (1957), Kozár et al. (1996) and Moghaddam (2013).

***Phenacoccus solani* Ferris**

Phenacoccus solani Ferris, 1918: 60.

Iran localities. Esfahan, Fars.

Host plants. Amaranthaceae: *Celosia cristata*; Asteraceae: *Chrysanthemum morifolium*; Poaceae: *Festuca arundinacea*.

References. Ben-Dov et al. (2013), Moghaddam (2006, 2009, 2010, 2013), Moghaddam and Alikhani (2010) and Moghaddam et al. (2004).

***Phenacoccus solenopsis* Tinsley**

Phenacoccus solenopsis Tinsley, 1898: 47.

Iran localities. Bushehr, Hormozgan.

Host plants. Malvaceae: *Hibiscus rosa-sinensis*.

References. Ben-Dov et al. (2013), Moghaddam (2013) and Moghaddam and Bagheri (2011).

***Phenacoccus turanicus* Kiritchenko, 1932: 137.**

Iran localities. Esfahan, Markazi, Tehran.

Host plants. Brassicaceae: *Descurainia sophia*, *Raphanus sativus*; Fabaceae: *Astragalus* sp.

References. Ben-Dov et al. (2013) and Moghaddam (2009, 2013).

***Planococcus citri* (Risso)**

Dorthisia citri Risso, 1813: 416. *Pseudococcus citri* Cockerell, 1902.

Iran localities. Fars, Gilan, Golestan, Khouzestan, Markazi, Mazandaran, Tehran.

Host plants. Apocynaceae: *Adenium obesum*, *Nerium oleander*; Arecaceae: *Chamycarpis lawsoniana*; Caryophyllaceae: *Dianthus barbatus*; Crassulaceae: *Crassula* sp.; Cupressaceae: *Cupressus* sp.; Ebenaceae: *Diospyros kaki*; Euphorbiaceae: *Codiaeum variegatum*, *Euphorbia pulcherrima*; Moraceae: *Ficus benjamina*, *F. carica*, *F. elastica*, *Morus alba*; Oleaceae: *Forsythia intermedia*, *Fraxinus excelsior*; Platanaceae: *Platanus orientalis*; Poaceae: *Oryza sativa*; Rutaceae: *Citrus bigaradia*, *C. sinensis*; Rosaceae: *Rosa* sp.; Strelitziaceae: *Strelitzia alba*.

References. Afchar (1937), Asadeh and Mosaddegh (1991), Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kozár et al. (1996), Moghaddam (2006, 2009, 2010, 2013), William and Moghaddam (1999).

Note. These are the first records of *P. citri* from the plant families Caryophyllaceae, Crassulaceae and Cupressaceae.

Planococcus ficus (Signoret)

Dactylopius ficus Signoret, 1875: 315. *Pseudococcus vitis* Fernald, 1903.

Iran localities. Elborz, Fars, Ghom, Khorasan -e Razavi, Markazi, Tehran.

Host plants. Cucurbitaceae: *Citrullus vulgaris*; Lythraceae: *Punica granatum*; Moraceae: *Ficus carica*; Vitaceae: *Vitis persica*.

References. Asadeh and Mosaddegh (1991), Ben-Dov (1994), Ben-Dov et al. (2013), Cox (1989), Kaussari (1946), Kozár et al. (1996), Moghaddam (2006, 2009, 2013) and Williams and Moghaddam (1999).

Note. This is the first record of *P. ficus* from the plant family Cucurbitaceae.

Planococcus vovae (Nasonov)

Pseudococcus (Dactylopius) vovae Nasonov, 1909: 484.

Iran localities. Esfahan, Fars, Gilan, Golestan, Kerman, Tehran.

Host plants. Cupressaceae: *Cupressus* sp.

References. Ben-Dov (1994), Ben-Dov et al. (2013), Cox (1989), Cox and Ben-Dov (1986), Kozár et al. (1996), Lotfalizadeh and Ahmadi (2000), Moghaddam (2006, 2009, 2010, 2013) and Williams and Moghaddam (1999).

● *Polystomophora arakensis* Moghaddam

Polystomophora arakensis Moghaddam in Moghaddam and Alikhani 2010: 12.

Iran localities. Markazi.

Host plants. Polygonaceae: *Atraphaxis* sp.

References. Ben-Dov et al. (2013), Moghaddam (2010, 2013) and Moghaddam and Alikhani (2010).

***Pseudococcus comstocki* (Kuwana)**

Dactylopius comstocki Kuwana, 1902: 52.

Iran localities. Ghazvin, Gilan, Khorasan -e Shomali, Mazandaran, Tehran.

Host plants. Fabaceae: *Robinia pseudoacacia*; Moraceae: *Morus alba*, *M. nigra*.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2009, 2010, 2013).

***Pseudococcus cryptus* Hempel**

Pseudococcus cryptus Hempel, 1918: 199.

Iran localities. Unknown.

Host plants. Unknown plant.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2013).

***Pseudococcus longispinus* (Targioni Tozzetti)**

Dactylopius longispinus Targioni Tozzetti, 1867: 75. *Pseudococcus adonidum* Westwood, 1840.

Iran localities. Gilan, Mazandaran, Tehran.

Host plants. Buxaceae: *Buxus hyrcana*; Celastraceae: *Euonymus* sp.

References. Ben-Dov (1994), Ben-Dov et al. (2013), Farahbakhsh (1961), Kausari (1957), Kozár et al. (1996) and Moghaddam (2010, 2013).

Note. This is the first record of *P. longispinus* from the plant family Buxaceae.

***Pseudococcus viburni* (Signoret)**

Dactylopius indicus Signoret, 1875: 317. *Pseudococcus affinis* Fernald, 1903. *Pseudococcus fathyi* Bodenheimer, 1944.

Iran localities. Esfahan, Gilan, Tehran.

Host plants. Amaranthaceae: *Amaranthus blitum*; Araceae: *Dieffenbachia* sp., *Phoenix* sp.; Bignoniaceae: *Catalpa speciosa*; Buxaceae: *Buxus hyrcana*; Cupressaceae: *Cupressus* sp.; Euphorbiaceae: *Codiaeum variegatum*; Fabaceae: *Albizia* sp., *Cercis siliquastrum*; Ginkgoaceae: *Ginkgo biloba*; Lythraceae: *Punica granatum*; Moraceae: *Ficus carica*, *Morus alba*; Rosaceae: *Rosa* sp.; Solanaceae: *Solanum tuberosum*; Theaceae: *Camellia sinensis*; Vitaceae: *Vitis persica*.

References. Ben-Dov et al. (2013), Ben-Dov (1994), Bodenheimer (1944), Kozár et al. (1996) and Moghaddam (2006, 2009, 2010, 2013).

Note. These are the first records of *P. viburni* from the plant families Amaranthaceae and Ginkgoaceae.

● *Rhodania aeluropi* Williams & Moghaddam

Rhodania aeluropi Williams & Moghaddam, 2007: 38.

Iran localities. Khuzestan.

Host plants. Poaceae: *Aeluropus* sp.

References. Ben-Dov et al. (2013), Moghaddam (2009, 2013) and Williams and Moghaddam (2007).

Saccharicoccus sacchari (Cockerell)

Dactylopius sacchari Cockerell, 1895: 195.

Iran localities. Khuzestan.

Host plants. Poaceae: *Saccharum officinalis*.

References. Moghaddam (2013).

Spilococcus alhagii (Hall)

Pseudococcus alhagii Hall, 1926: 7.

Iran localities. Esfahan, Fars, Khuzestan.

Host plants. Lythraceae: *Punica granatum*; Rhamnaceae: *Ziziphus spina-christi*.

References. Ben-Dov et al. (2013), Kozár et al. (1996), Moghaddam (2009, 2013) and Williams and Moghaddam (2007).

***Spilococcus flavus* (Borchsenius)**

Pseudococcus flavus Borchsenius, 1949: 117.

Iran localities. Unknown.

Host plants. Poaceae.

References. Ben-Dov et al. (2013), Kozár et al. (1996) and Moghaddam (2013).

•*Spilococcus mirzayansi* (Moghaddam)

Chorizococcus mirzayansi Moghaddam, 2010: 64.

Iran localities. Tehran.

Host plants. Cactaceae: *Opuntia ficus-indica*.

References. Ben-Dov et al. (2013), Moghaddam (2010a, 2013) and Tsai and Wu (2011).

***Trabutina crassispinosa* Borchsenius**

Trabutina elastica Borchsenius, 1936: 111 [misidentification, according to Borchsenius 1941: 133]. *Trabutina crassispinosa* Borchsenius, 1941: 133.

Iran localities. Ardabil, Kermanshah.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Kozár et al. (1996), Moghaddam (2013) and Torabi et al. (2010).

***Trabutina mannipara* (Hemprich & Ehrenberg)**

Coccus manniparus Hemprich & Ehrenberg in Ehrenberg 1829: 1.

Iran localities. Esfahan, Khorasan -e Shomali.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Danzig and Miller (1996) and Moghaddam (2013).

***Trabutina serpentina* (Green)**

Naiacoccus serpentinus Green, 1919: 117. *Naiacoccus minor* Borchsenius, 1949. *Naiacoccus serpentinus* Green, 1919.

Iran localities. Ardabil, Azarbaijan -e Garbi, Azarbaijan -e Sharghi, Bushehr, Hormozgan, Gilan, Kerman, Khouzesan, Sistan & Balouchestan, Zanjan.

Host plants. Tamaricaceae: *Tamarix* sp.

References. Ben-Dov et al. (2013), Bodenheimer (1944), Farahbakhsh (1961), Kozár et al. (1996) and Moghaddam (2006, 2009, 2010, 2013).

***Trionymus multivorus* (Kiritchenko)**

Pseudococcus multivorus Kiritchenko, 1936: 151.

Iran localities. Ardabil, Esfahan, Fars, Hamadan, Kerman, Kermanshah, Khorasan -e Shomali, Lorestan, Markazi.

Host plants. Apiaceae: *Echinophora* sp.; Asteraceae: *Cirsium* sp., *Echinops ritro*, *Lactuca* sp., *Matricaria chamomilla*, *Klasea cerinthifolia*; Fabaceae: *Astragalus* sp.; Malvaceae: *Hibiscus* sp.

References. Ben-Dov et al. (2013) and Moghaddam (2006, 2009, 2013).

***Vryburgia amaryllidis* (Bouché)**

Coccus amaryllidis Bouché, 1837: 99. *Trionymus amaryllidis* Lindinger, 1934.

Iran localities. Fars.

Host plants. Amaryllidaceae: *Amaryllis* sp.

References. Ben-Dov et al. (2013), Farahbakhsh (1961), Kozár et al. (1996) and Moghaddam (2013).

Family PUTOIDEAE

***Puto superbus* (Leonardi)**

Macrocrococcus superbus Leonardi, 1907: 152.

Iran localities. Ardebil, Esfahan, Zanjan.

Host plants. Fabaceae: *Astragalus* sp.

References. Ben-Dov (1994), Ben-Dov et al. (2013), Borchsenius (1949), Danzig (1999), and Moghaddam (2009, 2013).

Family RHIZOECIDAE

Rhizoecus albidus Goux

Rhizoecus (*Pararhizoecus*) *albidus* Goux, 1942: 40.

Iran localities. Esfahan, Markazi, Tehran.

Host plants. Cactaceae: *Gymnocalycium baldianium*; Crassulaceae: *Echeveria* sp.; Poaceae: *Festuca arundinacea*.

References. Ben-Dov et al. (2013) and Moghaddam (2001, 2009, 2013).

Note. These are the first records of *R. albidus* from the plant families Cactaceae and Crassulaceae.

Acknowledgements

The author thanks Dr. C. Hodgson (National Museum of Wales, Cardiff) for his constructive and helpful suggestions on the developing manuscript; I am also grateful to Dr. M. Parchami-Araghi, a colleague in the Insect Taxonomy Research Department (ITRD), the Iranian Research Institute of Plant Protection (IRIPP), for his helpful suggestions, and other colleagues for collecting the material now in the Hayk Mirazyans Insect Museum (HMIM). Also special thanks to F. Parsi for providing the Map of Iran.
