Contents

1 First record of the genus Passierna (Araneae, Lycosidae) from China, with the first description of the male of P. spinicrus Thorell, 1890 from Malaysia
Bing Tan, Mohammad Iman, Zhi-Sheng Zhang, Lu-Yu Wang

11 Cryptotermes pugnus (Blattodea, Isoptera, Kalotermitidae), a new drywood termite species from the Brazilian Caatinga dry forest and key to South American Cryptotermes Banks, 1909
Rudolf H. Schöfler, Alexandre Vasconcellos

19 Rediscription of the hispidobercyd, Hispidobercyx ambagiosus Kotlyar, 1981 from Taiwan, with comments on its morphology (Beryciformes, Stephanobercycoidei, Hispidobercyidae)
Yo Su, Chen Hsiang Lin, Hsuan-Ching Ho

35 The Neridaeidae (Annelida) – diagnoses, descriptions, and a key to the genera
Robin G. Wilson, Christopher J. Glasby, Torild Bakken

135 Two new species of Sinolachnus Hille Ris Lambers (Hemiptera, Aphididae, Lachninae) from China
Zhao-Xu Li, Jiao Chen, Li-Yun Jiang, Ge-Xia Qiao

153 New species of the genus Trichoscedes Ulmer, 1915 (Trichoptera, Leptoceridae) from Ratanakiri province, Cambodia, based on morphological and molecular data
Zhao-Xu Li, Jing Chen, Li-Yun Jiang, Ge-Xia Qiao

165 Five new species of Bryaxis Kugelann (Coleoptera, Staphylinidae, Pselaphinae) from Korea and a nomenclatural note on Bryaxis mahunkai Löbl
Yoon-Jae Choi, Sun-Jae Park, Sung-Gyu Lee, Jong-Seek Park

183 A taxonomic revision of the Old World genus Dichotellaas Kieffer (Hymenoptera, Scelionidae)
Johanna Schwartz, Simon Van Noort, Norman F. Johnson

207 Formosania immaculata, a new species of hillstream loach (Teleostei, Cypriniformes, Gastrotryiidae) from the Ou-Jiang River, Southeast China
Wei Sun, Jia-Jun Zhou, Jin-Quan Yang

223 Remarks on the genus Phymatodiscus Berlese, 1917, with the description of Phymatodiscidae fam. nov. and Bardizon entosii gen. nov., sp. nov. from Indonesia (Acarina, Mesostigmata)
Jenő Kontschán, Sergey G. Ermilov

237 Water beetles (Coleoptera) associated with Afrotemperate Forest patches in the Garden Route National Park, South Africa
Matthew S. Bird, David T. Bilton, Musa C. Mlambo, Renzo Perissinotto

259 Phylogeography and genetic diversity of the Japanese mud shrimp Upogebia major (Crustacea, Decapoda, Upogebiidae): Natural or anthropogenic dispersal?
Kyoosuke Kitabatake, Kentaro Izumi, Natsuko I. Kondo, Kenji Okoshi

289 New species and newly recorded species of Anisandrus Ferrari, 1867 ambrosia beetles from Thailand (Coleoptera, Curculionidae, Scolytinae, Xyleborini)
Wisut Sittichaya, Sarah M. Smith, Roger A. Beaver

307 A new species of Xenophrys (Amphibia, Anura, Megophryidae) from southern Tibet, China
Guocheng Shu, Ke Li, Yajong Wu, Qin Liu, Zhangxing He, Ling Li, He Zhang, Peng Guo

331 Renicoris robustus, a new genus and species of the subfamily Harpactorinae (Hemiptera, Reduviidae) from China
Jianyun Wang, Zhou Chen, Ping Zhao, Wanrui Cai

339 Morphological and ultrastructural studies of the internal reproductive systems of two deltocephaline leafhoppers, Nephrotettix cicinopsis and Deltothorax vulgaris (Hemiptera, Cicadellidae, Deltocephalinae)
Jiarui Chen, Jing Zhang, Wei Liu, Bismillah Shah, Christopher H. Dietrich, Yani Duan
AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript only through the online submission module at www.pensoft.net/journals/zookeys. In case of difficulties with the submission procedure, please contact zookeys@pensoft.net. Full text of author guidelines is available at: zookeys.pensoft.net/about#AuthorGuidelines

FOCUS AND SCOPE

ZooKeys is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free information exchange in taxonomy, phylogeny, biogeography and evolution of animals.

ZooKeys aims to apply the latest trends and methodologies in publishing and preservation of digital materials to meet the highest possible standards of the cybertaxonomy era. ZooKeys will publish papers in systematic zoology containing taxonomic/ faunistic data on any taxon of any geological age from any part of the world with no limit to manuscript size.

ZooKeys will consider for publishing works on the following topics:

- new descriptions of taxa, if they are accomplished with proper diagnoses, keys and/or revision of at least at species group level
- taxonomic revisions of extant (or, ‘recent’) and fossil animal groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, compendia, atlases
- collections of papers, Festschrift volumes, conference proceedings

Papers containing identification keys will be accepted with priority. Extensive manuscripts consisting mostly of keys will be considered for publishing as well.

ISBN numbers will be assigned to large monograph papers (i.e., major revisions of taxa), monographs, collections of papers, Festschrift volumes, atlases, checklists, compendia.

All content is Open Access distributed under the terms of the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

For those who want their work rapidly known to the World!

AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript only through the online submission module at www.pensoft.net/journals/zookeys. In case of difficulties with the submission procedure, please contact zookeys@pensoft.net. Full text of author guidelines is available at: zookeys.pensoft.net/about#AuthorGuidelines

EXCEPTS FROM THE GUIDELINES

Body Text. All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person wherever appropriate.

Web (HTML) links. Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a webpage, please include the http:// portion of the address.

Citations within the text. Before submitting the manuscript, check each citation in the text against the References to ensure that they match exactly. Delete citations from the list if they are not actually cited in the text of the article. Citations in the text should be formatted as follows: (Smith 1990) or (Smith et al. 1998; Brock and Gunderson 2001; Felt 2006).

References. It is crucial to properly format the references, because all references will be linked electronically as much as possible to the papers they cite. For all references, list all authors. You can include a DOI number for the full-text article as an alternative to or in addition to traditional volume and page numbers. Please use the following style for the reference list:

Accepted Papers: Same as above, but “In press” appears in front of the page numbers.

BOOKS:

Examples of such databases include, but are not limited to:

- ZooBank (www.zoobank.org),
- Morphbank (www.morphbank.net),
- Genbank (www.ncbi.nlm.nih.gov/Genbank),
- Barcode (www.barcodinglife.org)

Providing accession numbers allows linking to and from established databases and integrates your article with a broader collection of scientific information. Please list all accession numbers directly after the References.

INTERNATIONAL CODE FOR ZOOLOGICAL NOMENCLATURE

ZooKeys will publish papers only strictly following the rules of the 4th edition of the International Code of Zoological Nomenclature. Each first mentioning of an animal species name within the text must be provided with author(s)/' name(s). Year of publication of animal species is recommended to be given in taxonomic revisions with providing full referencing of original description in the list of references.

OPEN ACCESS FEES. Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper. The journal charges Open Access Publication Fee (see Article Processing Charges. http://zookeys.pensoft.net/about#ArticleProcessingCharges). Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor.

Open Access Publication Fees are usually covered by institutional funds and grants. Discounts/waivers can be requested by private and retired zoologists, scientists from low- and middle-level income countries, post-graduate students, especially in case of exceptionally good manuscripts.

Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

PRINTED VERSION. Offprints and printed issues of the journal can be purchased additionally (see journal’s website). For standing orders/subscriptions please contact the Managing Editor.
