

Contents

1	Two new species of the mealybug genus <i>Paracoccus</i> from Jiangxi, South China (Hemiptera, Coccomorpha, Pseudococcidae) <i>Jiang-Tao Zhang, Chao-Qun Li, Xing-Ping Liu, Yan Wang</i>
13	Revisionary notes on the genus <i>Aulacocentrum</i> Brues (Hymenoptera, Braconidae, Macrocentrinae) from Vietnam <i>Thi Nhi Pham, Khuat Dang Long, Cornelis van Achterberg, Thi Quynh Nga Cao, Van Phu Pham, Thi Hoa Dang</i>
43	Mitochondrial genome data provide insights into the phylogenetic relationships within <i>Triplophysa dalaica</i> (Kessler, 1876) (Cypriniformes, Nemacheilidae) <i>Hao Meng, Yingnan Wang, Ge-Xia Qiao, Jun Chen</i>
57	Hidden in the riffles: A new suckermouth catfish (Mochokidae, <i>Chiloglanis</i>) from the middle Zambezi River system, Zimbabwe <i>Tadiwa I. Mutizwa, Wilbert T. Kadye, Pedro H. N. Bragança, Taurai Bere, Albert Chakona</i>
93	<i>Zhangixalus thaoae</i> sp. nov., a new green treefrog species from Vietnam (Anura, Rhacophoridae) <i>Tao Thien Nguyen, Huy Hoang Nguyen, Hoa Thi Ninh, Linh Tu Hoang Le, Hai Tuan Bui, Nikolai Orlov, Chung Van Hoang, Thomas Ziegler</i>
115	Primitive new termites (Blattodea, Termitoidae) in Cretaceous amber from Myanmar <i>Yurong Jiang, Xinru Deng, Chungkun Shih, Yunyun Zhao, Dong Ren, Zhipeng Zhao</i>
127	Development of a multi-entry identification key for economically important fruit fly larvae (Diptera, Tephritidae, Dacinae) <i>Welma Pieterse, Marc De Meyer, Massimiliano Virgillio, Pia Addison</i>
137	Description of the larva of <i>Cybister lewisianus</i> Sharp, 1873 (Coleoptera, Dytiscidae, Cybistrinae) <i>Kohei Watanabe, Masakazu Hayashi</i>
153	Revision of the Chinese <i>Pachynotus</i> Kollar & L. Redtenbacher, 1844 (Coleoptera, Curculionidae), with descriptions of two new species <i>Jinliang Ren, Li Ren, Runzhi Zhang</i>
171	<i>Leptanilla voldemort</i> sp. nov., a gracile new species of the hypogaedic ant genus <i>Leptanilla</i> (Hymenoptera, Formicidae) from the Pilbara, with a key to Australian <i>Leptanilla</i> <i>Mark K. L. Wong, Jane M. McRae</i>
183	Divergence of the freshwater sleeper, <i>Neodontobutis hainanensis</i> (Chen, 1985) (Teleostei, Odontobutidae), in the Pearl River basin and on Hainan Island of southern China <i>Mingwei Zhou, Jianhong Xia, Chenhong Li</i>
197	A new species of <i>Hemiphyllodactylus</i> (Squamata, Gekkonidae) from southwest Yunnan, China <i>Hongxin Zhou, Shimin Li, Ziqi Shen, Shuo Liu, Dingqi Rao</i>
215	New species and other new records of the family Mycetophilidae (Insecta, Diptera) from Morocco <i>Mohamed Amin El Mouden, Peter J. Chandler, Ouafaa Driauch, Ouarda Banamar, Imane Saidoun, Abdellatif Akarid, Khalid Aattouch, Boutaina Belqat</i>
237	Taxonomic position of holothurian <i>Eupentacta fraudatrix</i> (Echinodermata, Holothuroidea) <i>Sergei V. Turanov, Alexey V. Smirnov, Yuri Ph. Kartavtsev</i>
249	A new genus and three new species of Hahniidae (Araneae) from China <i>Lu-Yu Wang, Zhi-Sheng Zhang</i>
261	A new species of <i>Habrophorula</i> from Vietnam and an updated key to species of the genus (Hymenoptera, Apidae) <i>Ngat Thi Tran, Michael S. Engel, Lien Thi Phuong Nguyen</i>

Sinahahnia eyu Lu-Yu Wang & Zhi-Sheng Zhang, sp. nov.

For those who want their work rapidly known to the World !

FOCUS AND SCOPE

ZooKeys is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free information exchange in taxonomy, phylogeny, biogeography and evolution of animals. **ZooKeys** aims to apply the latest trends and methodologies in publishing and preservation of digital materials to meet the highest possible standards of the cybertaxonomy era. **ZooKeys** will publish papers in systematic zoology containing taxonomic/ faunistic data on any taxon of any geological age from any part of the world with no limit to manuscript size.

ZooKeys will consider for publishing works on the following topics:

- new descriptions of taxa, if they are accomplished with proper diagnoses, keys and/or revision of at least at species group level
- taxonomic revisions of extant (or ‘recent’) and fossil animal groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, conspecti, atlases
- collections of papers, Festschrift volumes, conference proceedings

Papers containing identification keys will be accepted with priority. Extensive manuscripts consisting mostly of keys will be considered for publishing as well.

ISBN numbers will be assigned to large monographic papers (i.e., major revisions of taxa), monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the *Creative Commons Attribution License*, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their hompages or elsewhere to expedite distribution.

AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript *only* through the online submission module at <https://zookeys.pensoft.net>. In case of difficulties with the submission procedure, please contact zookeys@pensoft.net. Full text of author guidelines is available at: zookeys.pensoft.net/about#AuthorGuidelines

EXCERPTS FROM THE GUIDELINES

BODY TEXT. All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person whenever appropriate.

WEB (HTML) LINKS. Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a webpage, please include the **http://** portion of the address.

CITATIONS WITHIN THE TEXT. Before submitting the manuscript, check each citation in the text against the **References** to ensure that they match exactly. Delete citations from the list if they are not actually cited in the text of the article. Citations in the text should be formatted as follows: (Smith 1990) or (Smith et al. 1998; Brock and Gunderson 2001; Felt 2006).

REFERENCES. It is crucial to properly format the references, because all references will be linked electronically as much as possible to the papers they cite. For all references, list all authors. You can include a **DOI** number for the full-text article as an alternative to or in addition to traditional volume and page numbers. Please use the following style for the reference list:

Published Papers: Polaszek A, Alonso-Zarazaga M, Bouchet P, Brothers DJ, Evenhuis NL, Krell FT, Lyal CHC, Minelli A, Pyle RL, Robinson N, Thompson FC, van Tol J (2005) ZooBank: the open-access register for zoological taxonomy: Technical Discussion Paper. Bulletin of Zoological Nomenclature 62: 210-220.

Accepted Papers: Same as above, but “In press” appears instead the page numbers.

Electronic Journal Articles: Mallet J, Willmott K (2002) Taxonomy: renaissance or Tower of Babel? Trends in Ecology and Evolution 18 (2): 57–59. [https://doi.org/10.1016/S0169-5347\(02\)00061-7](https://doi.org/10.1016/S0169-5347(02)00061-7).

Paper within conference proceedings: Orr AG (2006) Odonata in Bornean tropical rain forest formations: Diversity, endemicity and applications for conservation management. In Cordero Rivera A (Ed) Forest and Dragonflies. Fourth WDA International Symposium of Odonatology, Pontevedra (Spain), July 2005. Pensoft Publishers, Sofia-Moscow, 51–78.

Book chapters: Mayr E (2000) The biological species concept. In: Wheeler QD, Meier R (Eds) Species Concepts and Phylogenetic Theory: A Debate. Columbia University Press, New York, 17–29.

Books: Goix N, Klimaszewski J (2007) Catalogue of Aleocharine Rove Beetles of Canada and Alaska. Pensoft Publishers, Sofia-Moscow, 166 pp.

Book with institutional author: International Commission on Zoological Nomenclature (1999) International code of zoological nomenclature. Fourth Edition. London: The International Trust for Zoological Nomenclature.

PhD thesis: Dalebout ML (2002) Species identity, genetic diversity and molecular systematic relationships among the Ziphiidae (beaked whales). PhD thesis, Auckland, New Zealand: University of Auckland.

CITATIONS OF PUBLIC RESOURCE DATABASES: It is highly recommended all appropriate datasets, images, and information to be deposited in public resources. Please provide the relevant accession numbers (and version number s, if appropriate). Accession numbers should be provided in parentheses after the entity on first use.

Examples of such databases include, but are not limited to:

- Zoobank (www.zoobank.org),
- Morphbank (www.morphbank.net),
- Genbank (www.ncbi.nlm.nih.gov/Genbank),
- BarCode (www.barcodinglife.org)

Providing accession numbers allows linking to and from established databases and integrates your article with a broader collection of scientific information. Please list all accession numbers directly **after the References**.

INTERNATIONAL CODE FOR ZOOLOGICAL NOMENCLATURE. **ZooKeys** will publish papers only strictly following the rules of the 4th edition of the *International Code of Zoological Nomenclature*. Each first mentioning of an animal species name within the text must be provided with author(s)’ name(s). Year of publication of animal species is recommended to be given in taxonomic revisions with providing full referencing of original description in the list of references.

OPEN ACCESS FEES. Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee (see Article Processing Charges: <http://zookeys.pensoft.net/about#ArticleProcessingCharges>). Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor.

Open Access Publication Fees are usually covered by institutional funds and grants. Discounts/waivers can be requested by private and retired zoologists, scientists from low- and middle-level income countries, post-graduate students, especially in case of exceptionally good manuscripts.

Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

PRINTED VERSION. Offprints and printed issues of the journal can be purchased additionally (see journal’s website). For standing orders/subscriptions please contact the Managing Editor.
