This special issue of ZooKeys marks the fourth volume in a series on New World macro-moth systematics. Twenty-two authors contributed 12 manuscripts for this volume, covering taxa in the Crambidae, Erebidae, Euteliidae, Geometridae, Noctuidae, and Notodontidae. New taxa are described from 26 countries, with emphasis on the Neotropical region. Taxonomic changes include the description of 27 new species and two new subspecies, eight new or revised synonyms, two revised statuses, and one new generic combination.
For those who want their work rapidly known to the World!

Focus and Scope

ZooKeys is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free information exchange in taxonomy, phylogeny, biogeography and evolution of animals. ZooKeys aims to apply the latest trends and methodologies in publishing and preservation of digital materials to meet the highest possible standards of the cybertaxonomy era. ZooKeys will publish papers in systematic zoology containing taxonomic/faunistic data on any taxon of any geological age from any part of the world with no limit to manuscript size.

ZooKeys will consider for publishing works on the following topics:
- new descriptions of taxa, if they are accomplished with proper diagnoses, keys and/or revision of at least species group level
- taxonomic revisions of extant (or “recent”) and fossil animal groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, conspecti, atlases
- collections of papers, Festschrift volumes, conference proceedings
- proceedings containing identification keys will be accepted with priority. Extensive manuscripts consisting mostly of keys will be considered for publishing as well.

ISBN numbers will be assigned to large monographic papers (i.e., major revisions of taxa), monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

ZooKeys is not only a free publication, but authors are also provided a barrier-free distribution of their paper to no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee of EURO 15 per page for papers of less than 100 printed pages. Publication fees for larger papers will be discounted and can be negotiated with the Managing Editor.

Open Access Publication Fees are usually covered by institutional funds and grants. Discounts/ waivers can be requested by private and retired zoologists, scientists from low- and middle-level income countries, post-graduate students, especially in case of exceptionally good manuscripts.

Discounts will be offered also to scientists who actively participate in the reviewing and editing process.

Printed Version: Offprints and printed issues of the journal can be purchased additionally (see journal’s homepage or elsewhere to expedite distribution).
